SUMMARY

Dynamic front-end developer with extensive expertise in **Next.js**, **React.js**, **Tailwind CSS**, **Bootstrap**, and **Redux**. Passionate about creating responsive, user-friendly web applications with a strong focus on performance, accessibility, and SEO optimization. Eager to leverage my skills to contribute to innovative projects within a collaborative development team.

WORK EXPERIENCE

Frontend Developer   Freelancer (Upwork, Mostaql)
July 2022 - Present

- Developed and implemented new user-facing features using React.js and Next.js.
- Built reusable components and front-end libraries to enhance future development efficiency.
- Translated design wireframes into high-quality, maintainable code.
- Optimized application performance across diverse web-capable devices and browsers.
- Collaborated with cross-functional teams to deliver high-quality web solutions.
- Conducted troubleshooting and debugging of software issues within a large codebase.
- Improved SEO strategies to enhance website visibility and traffic.

PROJECTS

E-Commerce Website

Technologies: Next.js, Tailwind CSS, Strapi, Stripe, NextAuth

Description: Developed a fully responsive e-commerce platform offering product browsing, filtering, and secure checkout.

Features:
- Integrated Strapi as a headless CMS for dynamic product content management.
- Implemented Stripe for secure payment processing with multi-currency support.
- Used NextAuth for secure user authentication, enabling seamless login and registration.
- Styled the website using Tailwind CSS for a modern, mobile-first user interface.
- Optimized performance using Next.js's server-side rendering (SSR) and static generation techniques.
- **Outcome:** Boosted conversion rates by 20% through improved load times and user experience.

Real-Time Chat Application

Technologies: React.js, Firebase, SASS

Description: Created a real-time chat application allowing users to create channels, send messages, and share media.

Features:
- Integrated Firebase for real-time data synchronization and user authentication.
- Designed a responsive UI with SASS, focusing on clean design and ease of use.
- **Outcome:** Successfully handled up to 500 concurrent users with smooth, real-time communication.
