SMALL BUSINESS

SBA U.S. Small Business
 Administration
8(a) Certified

HUBZone
 CERTIFIED

ABOUT US

Namaau Technological and Industrial (NTI) was founded by Dr. Kekai Namaauu, a retired US Air Force Cyber warrior on the belief that a company led and operated by those who have spent time "in the trenches", will inherently understand the need of the customer with the highest level of intimacy, as they have traveled the same journey, experienced the same victories and shared the same struggles.

NTI leverages its founder's two decades of cyber expertise, ranging from Presidentially mandated offensive cyber operations to global enterprise-level information assurance. As a Native Hawaiian Owned (NHO) 8(a) and HUBZone certified small business, NTI adds increased ease of acquisition due to its higher thresholds, compounded by its wide-array of cyber capabilities and industry certified solutions, resulting in a smoother procurement process and battle-tested solutions for the customer.

Dr. Kekai Namaauu, DBA
Founder, CEO

CORE COMPETENCIES

- ✔ Service Desk Support (Tier 1-3)
- ✔ Defensive Cyber Operations
- ✔ Offensive Cyber Operations
- ✔ DoD 8570 Compliance Training
- ✔ Microsoft 365 Engineering
- ✔ Virtualization (Azure)
