mps Sanskriti Pre-Primary School learning is experiential, imitative and sensory-based. Monthly and weekly themes bring learning to life through hands-on experiences and activities.

"Give the pupils something to do, not something to learn; and the doing is of such a nature as to demand thinking; learning naturally results."

THEMATIC LEARNING

With theme-based learning, children are thinking for themselves, following the thread of a topic to explore and discover more.

"It gives them a taste of moving from one related area to another related area and one builds on another. It's a way of learning throughout life."

ETHICS AND MORAL VALUES

Knowing good moral values such as kindness, humility, courage, and compassion at an early age builds a child's character. It forms the very core of their being and becomes a foundation of their moral beliefs. This is why it's essential to start teaching them moral values while they're growing.

CELEBRATIONS

Celebrations of learning can help students reflect on what they've learned, how they learned it, they can also help students develop empathy and appreciation for differences.

EKLAVYA SPORTS ARENA

Taking part in sports is important for children as it reduces stress and enhances their mood. Sports builds healthy bones and muscles, increases fitness, improves sleep, helps them socialize. Hello, when we choose MPS school, many people said that the teachers do not pay attention to studies. But we trusted the teachers here and they understood the child as per our expectations and paid attention to her growth accordingly. A school is not made just by the building, the teachers make a school. And the teachers here help not only the students but also the parents. The environment of MPS school is student friendly. Students are encouraged to take part in activities so that the physical and mental growth of the students can take place properly. We thank Principal Ma'am, Swati Ma'am and the entire MPS family. You considered our child as your own and took care of her.
