

Car Seat Questions

**Nampa Fire Protection District
NO longer has a Car Seat Program**

If you need assistance, please check for resources in your local area.

Did you Know?

Car seats and boosters provide protection for infants and children in a crash, yet car crashes are a leading cause of death for children ages 1 to 13. That's why it's so important to choose and use the right car seat correctly every time your child is in the car.

For steps to choose the right seat, install it correctly and keep your child safe please research appropriate resources such as the US Department of Transportation (National Highway Traffic Safety Administration). Reach out to your local resources such as hospitals to find programs and services in your area.
