PROFESSIONAL SUMMARY

- Over 3 years of work Experience in web Application development
- I have worked remotely for several French companies across various industries
- Significant software design, testing and development experience in javascript and typescript ecosystem
- Highly skilled in both frontend and backend software development
- Bilingual profile with the ability to work for companies in both French and English
- Passionate about learning new languages and creating beautiful User Interfaces
- Dedicated team player with well-developed analytical, communication, problem-solving skills from industrial projects and strong technical proposal skills

TECHNICAL SKILLS

- **Programming Languages:** Javascript, Typescript
- **Frontend development**: Nextjs, Reactjs, Tailwindcss, React query, Redux toolkit
- **Backend Development:** Nestjs, Graphql, Postgresql, Mongodb, Redis, Rabbitmq, Firebase, Microservices
- **Programming Concepts:** Clean/Hexagonal architecture, DDD, CQRS, SOLID
- **Software Development Methodologies:** Agile, Kanban, Scrum

WORK EXPERIENCE

Frontend Developer – Bubo, CDD, France, remote   Jan 2024 - Present
Technologies:Typescript, Nextjs, Reactjs, Tailwindcss, Zod, React Hook Form, Figma
- Build, maintain, and add new features in an app using Nextjs and TypeScript.
- Collaborating with QA and operations teams regarding app issues and updates.
- Proven ability to work on UI design and bug fixes by creating clean, readable, and testable code.
- Acquired the ability to troubleshoot issues that arose during the deployment of new infrastructure

Fullstack Developer – PILINK, CDD, France, remote   Oct 2023 - Feb 2024
Technologies: Reactjs, Nestjs, Postgresql, Tailwindcss, Redux toolkit, React query, Prisma
- Design, developed, and tested web application from scratch
- Analyze the business requirements and convert them into functional models.
- Setting up both backend and frontend project architecture.
- Develop a REST API in the backend that aligns with the business domain, and utilize this API to create user interfaces in the frontend.
- Manage Git (GitLab) repository, issues, and branching strategies
- Supported enhancements and maintenance of the existing application.

Fullstack Developer – ACESY, Yaoundé Cameroun, hybrid   July 2023 - Nov 2023
Technologies: Typescript, Reactjs, Nestjs, Postgresql, Tailwindcss, Redux toolkit, Prisma
- Participated in the complete Software Development Life Cycle (SDLC) for proper analysis, development, testing, deployment, and enhancement of the code.
- Choosing technologies and defining the project architecture
- Working on bug fixing, update new features and improving application performance
- Integrated Third-party libraries when it is required
- Perform code reviews and propose improvements to enhance its quality
- Worked with the Operations team to ensure smooth deployment of product release and update
- Provide training to junior developers to facilitate the enhancement of their skills

Fullstack Developer – Freelance, remote   Dec 2021 - Oct 2023
Technologies: Typescript, Nestjs, Nextjs, Reactjs, Tailwind, Postgresql
- Develop complete websites and applications for private individuals customers
- Build, maintain, and add new features in an app for start-up and scale-up
- You can find some of these freelance projects here

SHOWCASE PROJECTS
NTI shop (E-commerce)
Technologies: Reactjs, Tailwindcss, Firebase, Redux toolkit, Figma
- Create an online platform dedicated to the sale of electronic devices to help a local merchant increase their sales volume. Demo here

Sleepr (reservation)
Technologies: Microservices, Nestjs, Mongodb, graphql, Rabbitmq, GRPC, AWS, Kubernetes
- Create a backend application based on microservices and deploy it on a Kubernetes infrastructure, utilizing communication via RabbitMQ, gRPC, and an API gateway. Demo here

EDUCATION

Master 1 in Software Engineering   Sept 2022 - July 2023
University of Yaounde 1, Yaounde, Cameroon

Bachelor in Software Engineering   Sept 2019 - July 2022
University of Yaounde 1, Yaounde, Cameroon
