

# HUB

Innovation Hub

your Co-working space.  
your Design school.  
your iMac lab.  
your Cafe.

Introducing our cutting edge programs in partnership with the New School Network — the Philippine's first education experience designer to create transformative short cycle hybrid programs and creative, design driven learning environments.

Learn Visual/Graphic Design, Animation, Photography, Visual Effects, Motion Graphics, and hybrid programs that combine Entrepreneurship, Marketing, Design and Branding in the digital 21st century context. All programs are taught by practicing creative professionals and top industry experts.

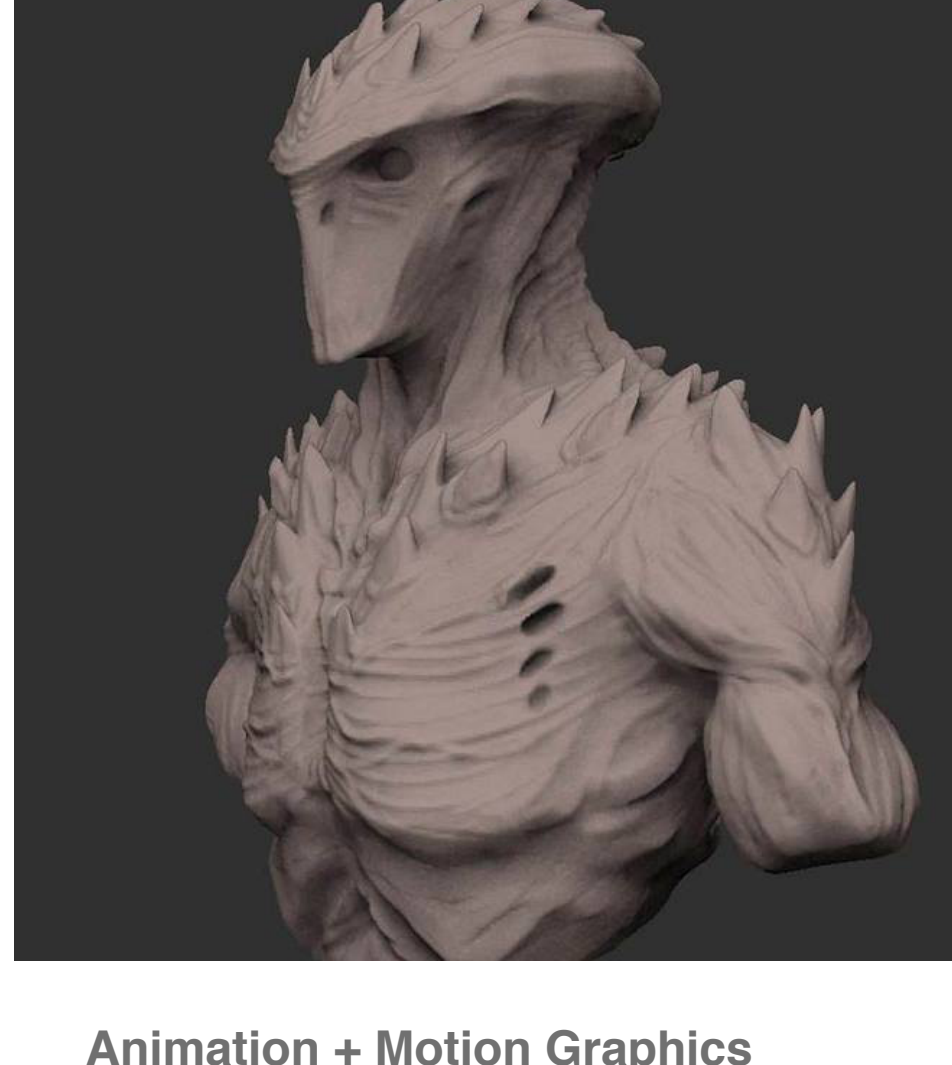

## Innovation HUB

Learn highly specialized 21st century skills you can use for  
school, work, personal and professional projects.

### Graphic Design

Learn fundamental to advanced design principles, elements and techniques using the most advanced design software — Adobe Photoshop and Illustrator.

### Animation + Motion Graphics

Make it move! This practical course will definitely take your presentations and videos to the next level.

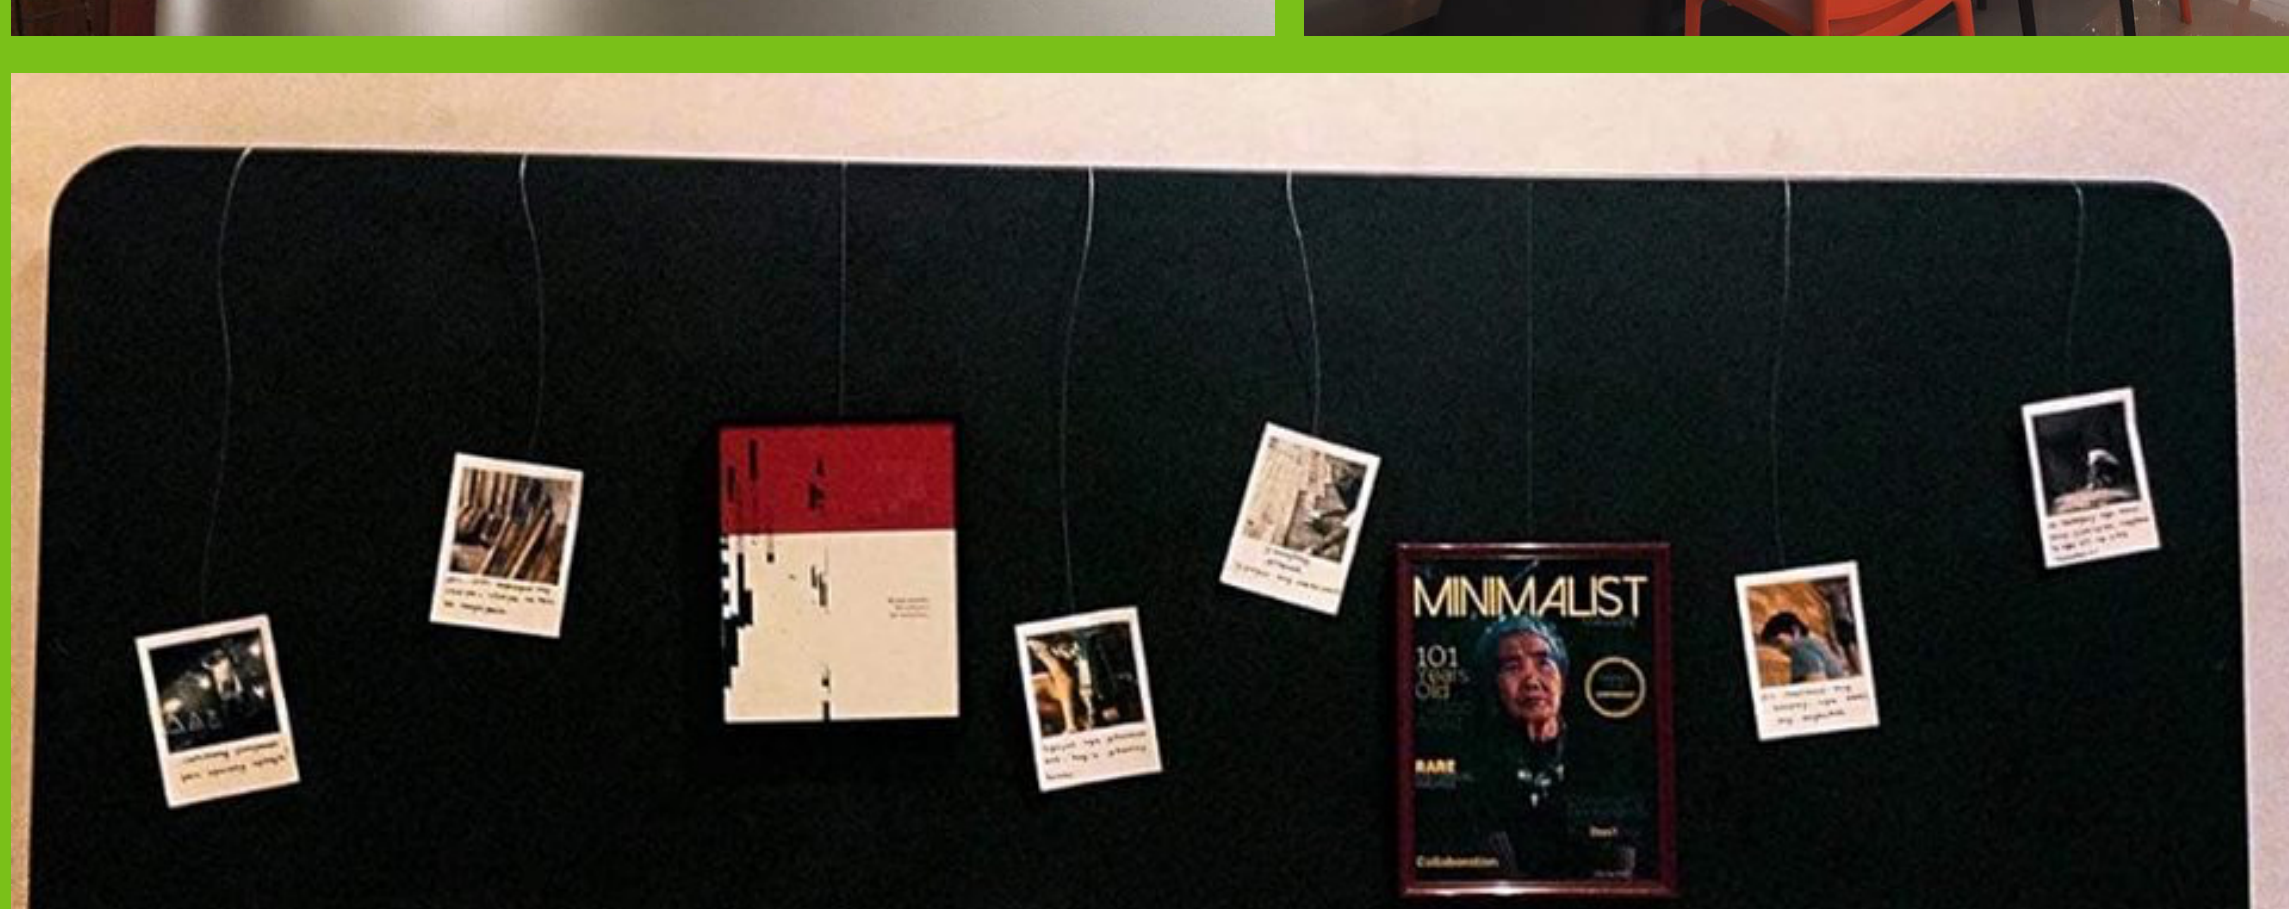

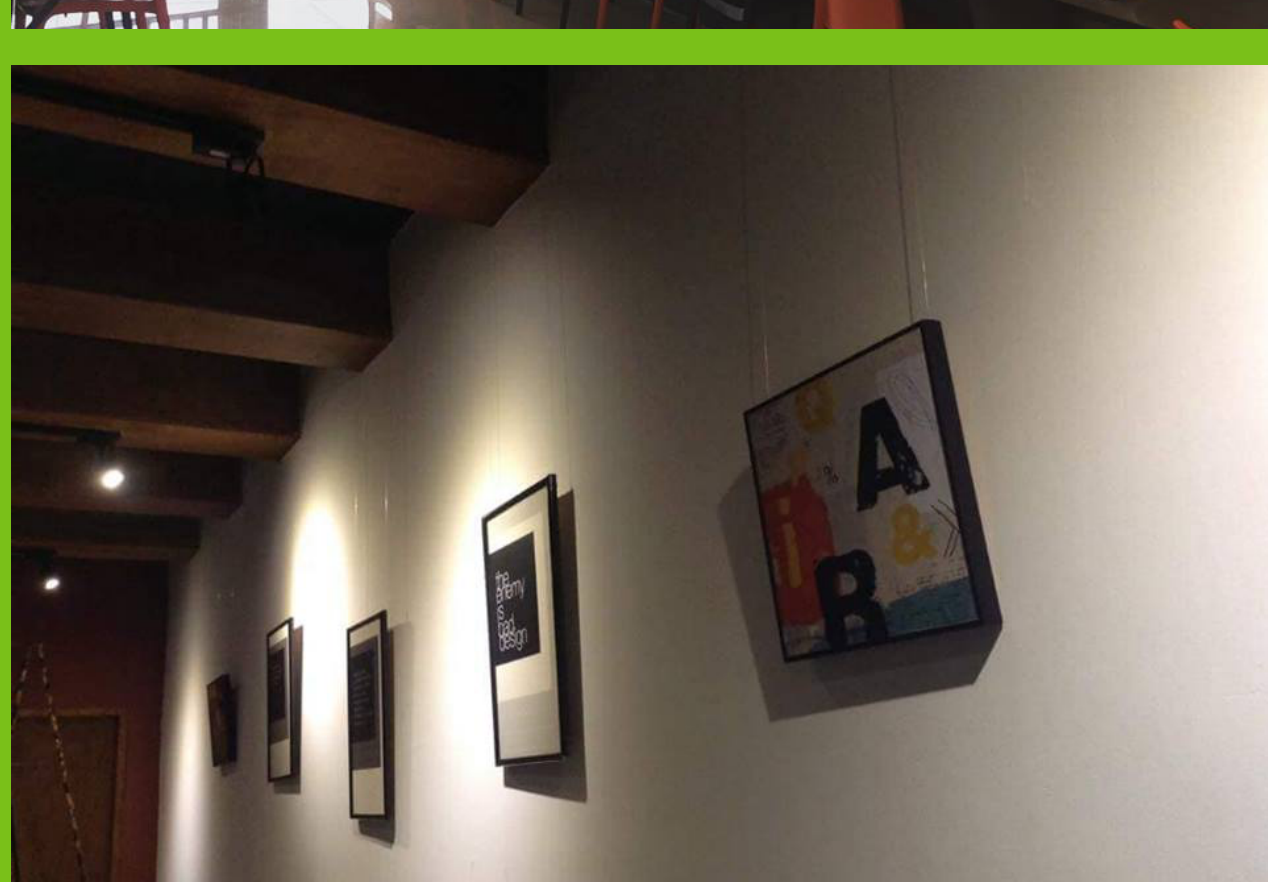

### Visual Comm + Branding

Communicate visually by combining great storytelling and visual design. Learn design thinking, marketing and branding principles.

### Special Weekend Workshops

Our community of creatives, artisans, storytellers can't wait to share their knowledge and skills on the things that they are passionate about.

12 hours
