

BOPA Film PIR Grade*

OPA PlainFilm

CAPRAN®

Two side corona treated

*Raw material obtained through the utilization of post-industrial recycled materials, certified with ECV (Environmental Claim Validation) by SCS Global Services.

Description

Bi-oriented transparent film, providing printing and adhesion properties. The base raw material, 100% of polyamide, comes from post-industrial content of chemical recycling, offers excellent oxygen barrier properties, ensuring the protection and integrity of packaged products. The corona-treated is located on both side of the reel.

Main Characteristics

- Ecological and sustainable film focused on the circular economy.
- Reduced environmental footprint.
- Maintains the same performance and efficiency as conventional film.
- High barrier to oxygen and aromas.
- Excellent mechanical properties at high and low temperatures.
- High resistance to flex cracking.
- Excellent transparency and gloss.

Applications

Treated on both sides, is used as an intermediate layer in multiple laminations. Recommended for packaging needing mechanical and/or chemical protection, used for products with migratory components like tomato sauces, ketchup, and mustard, also serving as a barrier to oils and fats. It complies with FDA and UE regulations for food contact.

* Important Considerations

*It is recommended to store this material at conditions not exceeding 30°C, in a place without exposure to sunlight and with a relative humidity of 60%. To protect against humidity and avoid film blocking, rolls should stay covered with plastic overwrap when not in use.

*The information in this data sheet is based on tests carried out in our laboratories and is intended to be used for reference only, and does not constitute a specification. Therefore, should not be construed as a guarantee of performance. It is the responsibility of the user to carry out the necessary tests to guarantee its use for the intended applications.

*This product complies with FDA and EU regulations. For more information, please visit our website: https://www.obengroup.com/en/documents

Standard Dimensions *

*This product has lot size and width restrictions. Please consult your sales representative.

Film Code	Thickness (µm)	Unit Weight (g/m²)	Width (mm)	Core Size	760 mm Φ Outside Diam.			
					Length (m)	Weight (kg/cm)	Treatment	
ATqi 10 TT	10.0	11.8	400 to 2,000	6"	38,200	4.5	Both
