— MEDITATION WEAVE
 6889 PERFECTION WHITE

— COMMON THREADS
 1073 PEACEFUL BREEZE

TRANSITIONAL

Poised between traditional and contemporary, transitional design is the chic, diplomatic blend of both. Happy to borrow classical forms and principles, the look strips away ornamentation in favor of a more modern approach to design. While the palette can vary, the preference for neutrals is well-established – allowing room for accents and art (and sometimes wallcovering) to move color concepts forward.

LUXE

Sophisticated and glamorous, luxe interiors are the haute couture of the design world. From the court of Versailles to the golden age of Hollywood, sumptuous interiors have captivated and inspired us for centuries. Today's luxe designs share the same pursuit of quality and elegance—with a little fantasy thrown in. Even as our offices become more casual and our lifestyles less formal, a luxe interior holds on to its sophisticated roots.
