

Pack 5 — Magic E

4 sheets, one per vowel. Add an E to each CVC word, rewrite the long-vowel word, then draw it — the draw step confirms comprehension, not just decoding.

Name: _____

Date: _____

How to use this worksheet

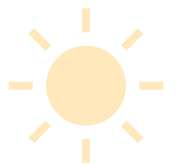

- 1 Read the short word out loud.
- 2 Add a silent E and write the new long-vowel word on the line.
- 3 Draw a quick picture of the new word in the box — this confirms your child understands the word, not just decodes it.

Example — this is what a correct answer looks like:

cap + e -> cape

Tip

Use after introducing magic-e as a rule. One sheet per vowel over 4 days.

Magic E — A

Add a silent E, write the new word, then draw it.

cap + e -> _____

Draw it!
