Word Families — Write & Read

All 23 rime families from the word-families-list guide — the most efficient bridge between letter sounds and reading real words. One page per family.

Name: _____ Date: _____

How to use this worksheet

1. Some words are split into two red chunks (like fl - at) — say each chunk out loud, then blend them together into one word.
2. Notice every word on the page ends the same way — that shared ending is the rime family.
3. Write the complete blended word on the blank line.
4. Check your spelling against the printed word once you're done.

Example — this is what a correct answer looks like:

b - at -> bat

Tip

Work through 2-3 families every few days rather than the whole page at once — the families guide suggests starting with -at, -ip, -an, -op, -ug, and -in, since they unlock the most words.
