SUMMARY

Software Engineer with 2+ years of experience in Front end Development, trained and passionate in Full Stack Development in MERN stack. Proficient in JavaScript, Typescript and experienced in Agile Software Development and demonstrated ability to deliver high-quality, scalable software solutions that meet both user and business needs.

EDUCATION

Bachelor Of Engineering in Information Technology (9.09 CGPA)   2018 - 2022
Savitribai Phule Pune University

Higher Secondary Education in Science (80.15%)   2016 - 2018
Maharashtra Board

WORK EXPERIENCE

Software Engineer (Custom Software Engineering)   Dec 2022 - Present
Accenture Solutions Pvt. Ltd.   *Pune, Maharashtra*

- Created custom UI libraries in npm for a client using TypeScript, Material UI, and Storybook.
- Built a supermarket web application using Next.js, TypeScript, Magnolia CMS API Integration, Algolia Search, Uberall, components from a custom UI library, and Jest for unit testing maintaining 90% test coverage.
- Contributed to 50% of feature development of bookings module in freight logistics management application using Next.js, Microfrontends in Turborepo, a custom UI library, Redux Toolkit, React Hook Form, and Jest.

Cybersecurity Intern   Sept 2021 - Aug 2022
Netlux Systems Pvt. Ltd.   *Pune, Maharashtra*

- Designed and created a Python-based web scanner tool for vulnerability assessment and penetration testing, leveraging Linux CLI tools.
- Built a MERN stack web application with 90% contribution to the source code for the scanner, enabling users to submit URLs, schedule scans, and view results in a tabular format.

SKILLS

Languages	JavaScript, TypeScript, Java, Python
Technology Stack	MERN, Spring Boot
Frontend	HTML5, CSS3, Sass, React.js, Next.js, Node.js, Redux, TailwindCSS
	Material UI, Microfrontends
Backend	Node.js, Express.js, Hono, Prisma ORM, PostgreSQL
Tools	Turborepo, JIRA, Confluence, Azure Devops, GitHub, AWS Amplify, S3, Lambda, GraphQL
Soft Skills	Problem solving, Self learning, Debugging, Adaptability, Collaborative Development
Areas of Interest	Software Development, Cyber Security

PROJECTS

[Portfolio](#) - Built a portfolio website showcasing my career in Frontend Development using Next.js, TailwindCSS, Acuternity UI, Shadcn-UI, Firebase storage and AWS Amplify.

[Flow Nodes](#) - Developed a web application for creating roadmaps and schemas with drag-and-drop functionality using React Flow library. Developed using Next.js, TypeScript, Redux Toolkit, TailwindCSS, and Shadcn-UI.
