

# LEERAN FARIN

Full Stack Software Engineer

(347) 613-0590 | leeran7@gmail.com | Github [🔗](#) | LinkedIn [🔗](#) | Website [🔗](#)

US Citizen, Davie, Florida

## EDUCATION

B.S. in Computer Science from College of Staten Island

*Status - Graduated*

## PROFESSIONAL EXPERIENCE

*Scarce City – Full Stack Software Engineer - Remote*

*January 2023 – June 2025*

- Led the full stack development of a bitcoin collectible auction house using JavaScript/TypeScript, HTML, and CSS in an AWS environment.
- Streamlined backend processes by optimizing Node.js and PostgreSQL queries, leading to faster API responses and reduced server load.
- Deployed via Vercel, Docker and Amazon Web Services (AWS) Cloud hosting.
- Streamlined CI/CD with GitHub Actions and monitored performance via Sentry.
- Enhanced unit testing with React Testing Library, Jest, and Cypress.
- Developed modular RESTful API endpoints with robust error handling and validation.
- Implemented Server-Side Rendering (SSR) using Nextjs, React and GraphQL to improve frontend performance.

*Full Stack Software Engineer Intern - Remote*

*January 2022 – December 2022*

- Implemented feature updates in collaboration with senior engineers, enhancing product capabilities and improving team efficiency.
- Contributed to code quality by performing peer reviews and enhancing CI/CD pipelines for faster, more reliable deployments.

## PROJECTS

*Manage Your Homes*

*June 2022 – August 2023*

- Developed an interactive property management platform using JavaScript/TypeScript, HTML, CSS, React, Next.js, Node.js, PostgreSQL and GraphQL.
- Deployed via Vercel, Docker and DigitalOcean, leveraging cloud hosting to ensure scalability, performance, and cost-effective resource management.

*ElizaOS*

- Contributed to an open source AI Agent project adding flexibility with utilizing the API.

*Webpage Summarizer*

- Built and deployed an OpenAI based google chrome extension that summarizes webpages.

## SKILLS

Languages: *TypeScript, JavaScript*

Frontend: *React, Nextjs, GraphQL, TailwindCSS*

Backend: *Node.js, PostgreSQL, Postman, REST APIs*

Tools & DevOps: *Git, GitHub Actions, Docker, Vercel, Postman, CI/CD*

Other Skills: *OpenAI APIs, Sentry, AI Integration, Jest, Cypress.io, React Testing Library*
