## Work Experience

Summer Intern..... Jun 2021 - Jul 2021

### Bekk

This summer I was placed on a team with only summer interns where I created the admin platform for Klimabrolet. Throughout the summer I also experimented with Azure Image Recognition API and wrote a detailed "feature vs price"-report convincing the customer to give us initially 400 000\$ to use this API for filtering over 700 000+ videos. The system backend was created with Kotlin & Spring Boot and the frontend was written in Elm.

Bachelor & Part Time..... Jan 2021 - Present

### Blank

My bachelor project is creating a tailored HR-system that automatically generates tasks for each employee whether its when an employee is signed, leaving the company or just follow up throughout the year. The system is also there to constantly remind HR to do tasks so that the employees get the best care as possible. After my bachelor theses Blank hired me as a part time employee with a task to further develop this platform.

Summer Intern..... Jun 2020 - Aug 2020

### KnowIt Objectnet

As a summer intern I worked as a Frontend developer at project EnTur with Team Betjent. Here I got experience as a consultant, team member and React-Electron developer. I learned better agile-development, Clean Code and Git-workflow (PR-QA).

Full-stack Developer..... Feb 2019 - Aug 2021

### NTNUI Sprint

I am volunteering to implement a membership system for NTNUI's 13.000 members. I started as a frontend developer using Vue.js, Vuex, Node, SASS, TypeScript and Jest. I have personally created the admin page. In Aug 2019 I began as a backend developer using Django Rest Framework and Stripe to create the payment system for NTNUI. I am also an active part of the database modeling team.

Lead Full-stack Developer..... Nov 2018 - Aug 2021

### TIHLDE

I am volunteering to create a member and event system for the student organization, TIHLDE. As Lead Developer I am responsible for a team of eight developers. I am using technologies such as React, React Hooks, Django-rest, Python and MySQL. We have also developed a member app using React Native with expo.

## Education

Masters in Computer Science..... 2021 - 2023

### NTNU

Bachelor in Computer Engineering..... 2018 - 2021

### NTNU

Major in General Studies..... 2014 - 2017

### Valler

## Achievement

Best 1st class team..... Mar 2019

### IDI Open 2019

2x Man of the match..... Jul 2019

### Floorball - Asia-Oceania Floorball Cup 2019

## Life Philosophy

"I usually describe myself as an engineer; that's basically what I've been doing since I was a kid."

## Technical Skills

### Frontend

- React, Vue, Next.js, Flutter
- Typescript, Elm
- SASS, BEM, Material UI
- Firebase, Azure

### Backend

- Java, Kotlin, Rust, C++
- Next.js, Express
- Django, Spring Boot
- RESTful, ORM

### Testing

- Jest
- JUnit

### Databases

- MySQL
- PostgreSQL
- NoSQL

### Design

- Figma
- Adobe Ps, Ai, Xd

### Process

- Agile
- Scrum
- Git

## Languages

Norwegian

English

Urdu

## Interests

Formel 1
