

Ivana Čulibrk

My name is Ivana Čulibrk, I am 22 years old. I am proud to say that I graduated from the electrotechnical school with excellent success and am currently studying information technology, specializing in software engineering.

I possess an extremely high level of values, responsibility, and communication skills, and I am always ready for further training and learning. Given my abilities, it is worth noting that I am capable of working both in a team and individually, as well as under pressure.
