EDUCATION

Vardhaman College of Engineering

Bachelor of Technology in Computer Science and Engineering; GPA: 8.4/10.0

Hyderabad, TS, IN

Class of 2024

EXPERIENCE

Associate Technical Support Engineer

Salesforce

Aug 2024 – Present

Hyderabad, Telangana

- Collaborated on Email Desktop Integration team, resolving complex Microsoft Exchange and Gmail integration issues for key business partners.

Intern

Salesforce

Feb 2024 – Jul 2024

Hyderabad, Telangana

- Executed precise debugging strategies to swiftly address technical issues within Salesforce products, ensuring satisfaction for customers.
- Obtained the Admin 201 certification and ranger status on the Trailhead platform.

Open Source Contributor

Sugar Labs

Dec 2023 – Present

Remote

- Successfully migrated 17 Sugarizer platform activities from WebL10n to i18next, enhancing internationalization and localization capabilities.
- Contributed 25 pull requests, resolving bugs, adding features, and improving user experience within SugarLabs' open-source ecosystem.

PROJECTS

Serenity Harbor | Video Demo | [React.js](#), [MongoDB](#), [Flask](#), [OpenAI](#), [LLM's](#)

Dec 2023 – Apr-2024

- Spearheaded the development of a online platform for users to interact with an AI mental health chat bot.
- Recognized by OpenAI, and received a grant of 2,500\$ to boost the development of the project.
- Trained a Fine-Tuned Large Language Model based on gpt-3.5-turbo-0613, using 5,000 rows of rich data.
- Designed user authentication and authorization, an invitation system, and chat history management using MongoDB and JWT tokens.
- Repository:** github.com/VishnuVardhanBR/serenity-harbor

ApplyGPT | Website | [Next.js](#), [Javascript](#), [LLM's](#), [TailwindCSS](#)

Jun 2024 – Jul 2024

- Devised a Chrome extension leveraging LLM's to automate and streamline job application processes.
- Implemented dynamic form filling on applications, ensuring tailored answers using the data from job listings and user profiles.
- Prioritized user privacy and data security by maintaining local execution and user data storage.
- Repository:** github.com/VishnuVardhanBR/ApplyGPT

Fyles | Video Demo | [Mongodb](#), [Express.js](#), [React.js](#), [Node.js](#), [AWS S3](#)

Oct 2023 – Nov 2023

- Implemented a cloud storage application aimed for small groups to access shared storage hosted on AWS S3.
- Optimised costs by reducing S3 API calls by **66%** by implementing directory caching.
- Added user authentication and authorization by integrating CRUD operations in Mongodb.
- Repository:** github.com/VishnuVardhanBR/fyles

ACHIEVEMENTS

- Rated 1949 on LeetCode (500+ Problems solved), 3 star on CodeChef (1700 rating).
- Mentored a batch of 125 students, sharpening their skills in problem solving, data structures, and algorithms.
- Achieved the 3rd position in IIIT Hyderabad's Annual Hackathon.
- Achieved the 1st position in the Inter-College Project Expo.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, PHP, HTML, CSS.

Frameworks: React.js, Express.js, Flask.

Databases: MySQL, MongoDB, Firebase.

Developer Tools: Git, AWS, Google Cloud, Postman.

Other: Large Language Models, Data Structures and Algorithms.
