## Summary

Experienced Software Developer with 5 years of expertise in designing and developing user interfaces, conducting testing, and delivering employee training. Proficient in utilizing diverse tools and programs to create high-quality applications that meet user needs and organizational objectives.

## Education

### Intermediate Degree in Mathematics

Govt Degree Collage, Shakargarh  
Jun, 2010 - Sep, 2013

### Matriculation in Science

Govt High School, Shakargarh  
Jun, 2008 - Aug, 2010

## Technical Skills

HTML, CSS, Scss, tailwindcss, javascript, typescript, vue.js, nuxt.js, svelte, sveltekit, react.js, next.js, astro, node.js, express.js, nest.js, tRPC, prismaORM, mongodb, mysql, postgres, firebase, supabase, figma, vscode, git, docker, vercel, netlify

## Soft Skills

Communication, Teamwork and Collaboration, Innovation and Creativity, Resilience and Perseverance, Remote Collaboration, User Focus, Continuous Learning and Growth Mindset.

## Additional Skills

UI/UX design, Research

## Languages

English, Hindi, Urdu

## Work Experience

### Birble AI

Senior Software Developer

Feb, 2024 - Apr, 2024

Birble AI is a platform which leverages multiple AI models to generate a diverse range of assets for creating and deploying NFTs across various blockchains.

- Conducted a comprehensive analysis report identifying over 200 issues related to UI/UX, code reusability, and application performance, providing actionable insights for improvement initiatives.
- Formulated and introduced an extensive developer guidebook detailing efficient strategies for creating and managing components, endpoints, server actions, and styles; increased code quality and consistency across the team resulting in a 45% decrease in bug reports.
- Established and lead a team of 10 people; covering every key role in the early stages.

## Projects

### Project Manager

Dec, 2023 - Jan, 2024

<https://nrello.vercel.app/>

Project management application utilizing a Kanban system for efficient organization and management of tasks.

- Developed and deployed a custom authentication solution from scratch, enhancing security and user authentication processes by 90%.
- Engineered a feature allowing users to create multiple boards and efficiently manage tasks within each board, enhancing organization and productivity by 80%.
- Integrated Stripe payment gateway to facilitate secure transactions, providing users with seamless billing management capabilities and ensuring a 100% smooth payment experience.

### Recorder

Jan, 2024 - Jan, 2024

<https://reekordor.vercel.app/>

A web based screen recording application, facilitating seamless capturing of screen activities.

- Implemented functionality enabling users to record browser tabs, applications, or entire screens, enhancing versatility and usability by 100%.
- Incorporated microphone audio recording capabilities, empowering users to create voiceovers during screen recordings, enriching content creation possibilities by 90%.
- Configured the system to output screen recordings in .webm format, ensuring compatibility with various platforms and devices by 100%.

## **Bookmarks Manager**

Nov, 2023 - Dec, 2023

<https://book-shook.vercel.app/>

A web application for bookmarks management.

- Allowing users to organize bookmarks into customizable folders, enhancing bookmark management and accessibility by 100%.
- Enhanced user experience by enabling users to add bookmarks with custom names and associated links, facilitating 110% efficient organization and retrieval.
- Streamlined testing procedures by providing a standardized login credential (username: test, password: test), allowing 100% easy exploration of features for evaluation purposes.
