Sr. Front-end Engineer . 11 mos
Alibaba . Iran. Tehran . Tehran

Alibaba Travels is the leading IT company in the tourism industry of Iran.

I work as a senior front-end engineer and my job is to architect and develop a new website for our company (Indra project).

For example, I have written a big webpack architect and config for managing pages (HTML files) and connect js files to HTML files and split javascript vendor files into every page then make a whole project build by splitting the pages folder by folder and manage the CSS and JS files depended in each page.

I have written the Aircip web application dashboard for managing CIP tickets in the Alibaba.
