Experiences

SOFTWARE DEVELOPER | SAET | AUGUST 2019 - CURRENT

www.saet.org - Via Leinì 1/b, San Maurizio Canavese, Turin

SAET designs, manufactures and markets products and solutions for anti-theft, access control and integrated supervision of security systems and building automation.

My job is to help improving the backend of the saet infrastructures by modernizing them with the latest technologies available like, for example, Docker and AWS.

I work in a small team with languages like C#, Java and Python while following AGILE, KISS and REST development principles.

SHOP ASSISTANT | TRAID | SEPTEMBER 2018 - OCTOBER 2018

www.traid.org.uk - 119 King St, Hammersmith, London

TRAID is a charity shops chain located in UK which recycles thrown away clothes.

This job was part of a contract with my school to help me improve my English skills by working with a professional team in the heart of London.
