WARRANTY

Company warrants to the original purchaser of the original portable cellular telephone and any part thereof during the warranty period if proven defective in material or workmanship or product failure within the warranty period of purchase, such as (but not limited to) original or rebuilt parts) at the discretion of the Company, parts or labor directly related to the defect.

The warranty covers the battery and battery pack for a period of twelve (12) months from the date of purchase.

This warranty is non-transferable and applies only to the original purchaser of the product.

The warranty does not cover damage caused by conditions, accident, misuse, or improper use.

The warranty does not cover damage caused by electronic serial number (ESN) tampering.

The warranty does not cover damage caused by humidity, excessive moisture, or other environmental conditions.

The warranty does not cover damage caused by the use of any accessory not approved by the Company.

The warranty does not cover structural items.

The warranty does not cover damage caused by fire, flooding, lightning, or other natural disasters, or blown fuse, theft, or other acts of vandalism.

The warranty does not cover the cost of reinstallation of the telephone or the cost of late signal reception or operation of the telephone.

For the full terms of this Warranty, please refer to the Warranty coverage information on the back of the product. To request a repair or replacement, please contact the Company at the address, daytime phone number, or e-mail address described in the description of the product on the back of the product.

WARRANTY

Company warrants to the original purchaser of the original portable cellular telephone and any accessories that are part thereof during the warranty period. If the telephone is proven defective in material or workmanship or if it experiences a component failure within the warranty period, the Company will, at its option, repair or replace (with new or rebuilt parts) at no charge to the purchaser the telephone and any accessories or labor directly related to the repair or replacement.

The warranty covers the telephone and battery for a period of twelve (12) months from the date of purchase.

The warranty is non-transferable and applies only to the original purchaser of the telephone.

The warranty does not cover damage caused by conditions, accident, misuse, or improper use.

The warranty does not cover damage caused by electronic serial number (ESN) tampering.

The warranty does not cover damage caused by humidity, excessive moisture, or other environmental conditions.

The warranty does not cover damage caused by the use of any accessory not approved by the Company.

The warranty does not cover structural items.

The warranty does not cover damage caused by fire, flooding, lightning, or other natural disasters, or by a blown fuse, theft, or other loss.

The warranty does not cover the cost of reinstallation of the telephone or the cost of late signal reception or operation of the telephone.

Under the terms of this Warranty, the Company will provide warranty coverage for the repair or replacement of the telephone and any accessories at the address, daytime telephone number, and description of the telephone and accessories provided by the purchaser at the address of the purchaser. The purchaser must provide a description of the telephone and accessories to be repaired or replaced.
