Address: Doha, Qatar (Home)

ABOUT ME

Results-driven Information Security Analyst with over 10 years in IT and nearly 5 years specializing in Cybersecurity. Experienced in ethical hacking, threat analysis, and risk management, with a focus on securing digital infrastructures. Certified in CompTIA Security+, Cisco Certified Network Associate (CCNA), and EC-Council Certified Cybersecurity Technician. Adept at mitigating advanced threats and implementing cutting-edge security solutions for diverse industries.

WORK EXPERIENCE

SEP 2024 – NOV 2024 Doha, Qatar
IT ANALYST TRAFFIC-TECH (SUBCONTRACTED)

Key Performances
- Collaborated with stakeholders to develop and deploy customized IT solutions, resulting in a 15% boost in overall operational efficiency
- Provided in-depth analytics for IT project proposals, influencing budget allocation decisions and contributing to a 20% cost reduction in IT investments
- created automated reporting dashboards, reducing report preparation time by 40% and enabling faster decision-making processes.

APR 2024 – MAY 2024 Doha, Qatar
IT SUPPORT SPECIALIST QATAR ENERGY (SUBCONTRACTED)

Key Performances
- Implemented a robust backup and recovery strategy, reducing data restoration time by 50% during critical outages
- Designed and deployed a remote desktop support system, enabling efficient troubleshooting and support for remote employees

2019 – 2023 Lagos, Nigeria
INFORMATION SECURITY ANALYST TRAVELWAY LOGISTICS

Key Performances:
- Designed and implemented security measures to safeguard critical assets from malware and phishing attacks.
- Conducted vulnerability scans and penetration tests using tools like Nessus and Burp Suite.
- Streamlined incident response processes, reducing response times by 25%.
- Trained staff on cybersecurity best practices, increasing organizational compliance rates by 15%.
- Ensured adherence to regulatory frameworks, including GDPR and ISO 27001.

2015 – 2019 Lagos, Nigeria
TECHNICAL SUPPORT ENGINEER THE EMERGENCE COMPANY

Key Perfomances:
- Diagnosed and resolved network vulnerabilities affecting end-user applications.
- Assisted in migrating legacy systems to secure, modern infrastructures.
- Created comprehensive reports on security breaches and proposed solutions.
- Implemented secure communication protocols to protect sensitive project data
- Designed a security blueprint for migrating on-premise systems to AWS Cloud.
