SIMPLE TESTING. SMARTER SCREENING.

Aspen Uri-Plus 10P makes routine urine screening simple and efficient. The strip format allows multiple parameters to be evaluated from a single urine sample, helping streamline everyday laboratory workflows.

HOW IT WORKS

01

COLLECT

Collect a fresh urine sample in a clean container.

02

DIP

Immerse the reagent strip in the urine sample according to the recommended procedure.

03

REMOVE & READ

Remove the strip and allow the reaction to develop as specified in the product instructions.

04

ANALYZE

Interpret the results visually or use with a compatible Uri-Plus urine analyzer, following the manufacturer's instructions.

KEY PRODUCT HIGHLIGHTS

10
in

10 Tests in One Strip

Multiple routine urine parameters can be screened simultaneously.

Convenient Workflow

A simple strip-based format helps make routine urinalysis quick and practical.

Laboratory Ready

A useful solution for routine screening in diagnostic and healthcare environments.

Professional Screening Solution

Designed to support efficient urine testing and laboratory workflow.

APPLICATIONS

Hospitals

Routine patient urine screening and laboratory testing.

Diagnostic Laboratories

Efficient multi-parameter urinalysis for routine workloads.

Clinics & Healthcare Centres

Convenient screening solution for everyday diagnostic needs.

Pathology Laboratories

Suitable for routine urine parameter screening.
