URIsself[®]

10-Parameter Urine Reagent Strips

Fast • Convenient • Reliable Urinalysis

Product Introduction

URIsself urine reagent strips provide a convenient solution for rapid screening of important urine parameters. Designed for professional laboratory and healthcare use, the strips enable quick visual assessment of multiple urine chemistry parameters from a single urine sample.

10 Parameters

- Urobilinogen
- Bilirubin
- Ketone
- Creatinine
- Blood
- Protein
- Micro Albumin
- Nitrite
- Leukocytes
- Glucose

Key Highlights

Multi-parameter urine screening

Quick and easy testing procedure

Convenient color-comparison reading

Compact, ready-to-use reagent strips

Suitable for routine urinalysis

Helps support rapid preliminary screening

RAJ BIOSIS PVT. LTD.

10-Parameter Urine Reagent Strips

Simple Urine Screening. Multiple Parameters. One Strip.

Why URIsself?

MULTI-PARAMETER TESTING

Screen multiple clinically relevant urine chemistry parameters using a single reagent strip.

QUICK & CONVENIENT

Simple strip-based testing designed for efficient routine urinalysis.

EASY VISUAL READING

Compare developed reagent colors with the supplied color chart for interpretation.

ROUTINE SCREENING

Useful as part of routine urine examination and preliminary screening workflows.

Accurate Results for Better Care

Application Areas

Clinical Laboratories

Clinics

Hospitals & Diagnostic Centres

Health Screening Programs

Pathology Laboratories

Routine Urine Examination

Testing Workflow

1 Collect Sample

2 Dip Strip

3 Remove & Drain

4 Compare Colours

5 Interpret Results

Important Note: For professional/in-vitro diagnostic use. Follow the product instructions and specified reading times for accurate interpretation.
