Why Choose DIRUI H10?

Multi-parameter screening in a single strip

Simple and convenient testing procedure

Quick visual interpretation

Ideal for routine urine analysis

Suitable for laboratories, hospitals & clinics

PRODUCT HIGHLIGHT

10 Parameters | Easy Handling | Rapid Screening

About DIRUI H10

DIRUI H10 Urinalysis Reagent Strips are designed for rapid and accurate screening of 10 important urine parameters. The strips offer reliable results with easy handling, making them an ideal choice for routine urinalysis in laboratories, hospitals, clinics and healthcare facilities.

10 Parameters

	Urobilinogen	Liver function indicator
	Bilirubin	Liver & biliary system health
	Ketone	Metabolic disorders & diabetes
	Blood	Infection, inflammation or kidney issues
	Protein	Kidney function & damage
	Nitrite	Bacterial infection (UTI)
	Leukocytes	Inflammation & infection (UTI)
	Glucose	Diabetes & sugar metabolism
	Specific Gravity	Kidney concentrating ability
	pH	Acid-base balance & kidney function

Key Features & Benefits

Multi-parameter Screening

Detects 10 parameters in a single strip for comprehensive analysis.

Simple & Convenient

Easy to use, no special equipment required.

Quick Visual Interpretation

Clear and accurate color comparison for fast results.

Reliable Results

High quality, consistent performance for clinical confidence.

Wide Application

Suitable for laboratories, hospitals, clinics & healthcare facilities.
