URINALYSIS**

Chimera RapidVue[®] Urine Strip 10P

A Complete Urinalysis Solution

*Small Strip
Big Insights*

Simple Procedure

1

Collect a fresh urine sample in a clean, dry container.

2

Dip the strip into urine sample for 1–2 seconds.

3

Remove the strip and gently tap the edge to remove excess urine.

4

Wait for the specified time (about 60 seconds) and compare with the colour chart.

Interpreting Results

Compare the colour of each test pad with the corresponding colour on the chart at the recommended time. Results are semi-quantitative.

Parameter	Negative	Trace	Small	Moderate	Large
Leukocytes					
Nitrite					
Urobilinogen					
Protein					
pH					
Blood					
Specific Gravity					
Ketones					
Bilirubin					
Glucose					

Note: Colours shown are for reference only. Please refer to the product insert for complete interpretation details.
