Frontend Developer (React | Next.js | Angular | TypeScript)

Frontend Developer with 3+ years of experience in **React, Next.js, Angular, and TypeScript**, specializing in **frontend development, reusable components, and performance optimization**. Proven track record of **leading teams, setting up scalable codebases, and delivering user-focused web applications**.

SKILLS

EXPERIENCED SKILLS:

React	Next.js	Mongodb
Jira	Typescript	Node.js
GIT/GITHUB	JAVA	Javascript

FAMILIAR SKILLS:

Docker
Firebase
Angular
SQL

PROFESSIONAL EXPERIENCE

Software Developer L-2   June 2024 - Present

Predigle India Pvt. Ltd. | Chennai, India

- Contributed to **frontend development** across multiple company products and client projects, focusing on secure, scalable, and high-performing applications.
- Set up new codebases and implemented best practices for folder structure, reusable components, and state management using **React, Next.js, Angular,** and **TypeScript**.
- Built responsive, accessible, and **reusable UI components** with **React, Next.js, Angular, MUI, and Shadcn,** improving usability and consistency across applications.
- Collaborated with developers, interns, product managers, and designers to translate requirements into clean, intuitive, and performant user interfaces.
- Participated in **code reviews**, pair programming, and knowledge-sharing sessions to improve code quality, maintainability, and overall team efficiency.
- Worked on **frontend architecture, performance optimization**, and component-driven development, ensuring maintainable and scalable UI systems.

Software Developer L-2   October 2023 - June 2024

Purecode India Pvt. Ltd. | Hyderabad,India

- Developed secure and scalable software solutions using industry best practices for coding and architecture. **Technologies**: MEAN stack, Next.js, TypeScript, Git/GitHub.
- Created and optimized multiple pages, frequently updating the UI to enhance user experience and engagement.
- Successfully transitioned the project from **React to Next.js**, improving page load speed and maintainability.
- Ensured **Lighthouse** performance scores remained above 90 by implementing optimizations during page development.
- Developed and maintained backend APIs in **Node.js**; integrated new APIs and fixed existing bugs to improve functionality and reliability.

Software Developer   May 2022 - Oct 2023

Starfluenza Pvt. Ltd | Mumbai, India

- Created backend APIs using Node.js and seamlessly integrated these APIs with the React frontend.
- Transitioned the codebase from React with JavaScript to Next.js with TypeScript, improving performance and maintainability.
- Worked on multiple client projects and ensured timely delivery with high performance

EDUCATION

Bachelor of Technology - Oriental Institute of Science and Technology (2020-2024)

Majors: Computer Science & Business System   CGPA: 8.5
