MONALI KUMARI

Junior Clouds Engineer

9973414302

monalik777@gmail.com

Jaypee Aman sector 151 noida, Noida,

SUMMARY

Results-driven senior-level Cloud engineering professional with strong technical acumen and proven capacity for leading world-class engineering teams from multiple technology disciplines. Excel at planning and executing large-scale cloud migration programs. Talent for developing forward-thinking systems strategies and deploying new code across fast-paced physical and virtual release cycles.

SKILLS

- Amazon AW
- Jenkins
- Cloud Computing
- Systems Virtualization
- Leadership & Team Building
- Scripting & Debugging
- Enterprise Systems Migration
- Vendor Negotiations
- Infrastructure as Code (IaC)
- Multi-cloud Environments

EDUCATION

Chandigarh University, Chandigarh

Master of Computer Application
May 2024 – 2026

Noida International University, Greater Noida

Bachelor of Computer Application
August 2019– June 2018

CERTIFICATIONS

- January 2025 – February 2025
  Devops , Udemy
- April 2022 – June 2022
  Programming Foundation with Javascript, HTML and CSS., Coursera

PROFESSIONAL EXPERIENCE

Junior Cloud Engineer
Digilooks Healthcare, Noida | Dec 2022 -Present

- Cloud Infrastructure Support: Assist in setting up, configuring, and maintaining cloud environments E2E.
- Monitor cloud systems for performance, availability, and cost-efficiency.
- Deployment & Automation: Help in automating deployment
- Write basic Infrastructure as Code (IaC) scripts using tools like Terraform, AWS CloudFormation
- Backup and Disaster Recovery: Support backup strategies and ensure disaster recovery procedures are in place.
- Security & Compliance:Assist with cloud security tasks such as managing IAM roles, access controls, and encryption settings.Ensure cloud infrastructure complies with organization's security policies.
- Monitoring & Troubleshooting: Set up basic monitoring (CloudWatch, Azure Monitor, etc.) and alerts.
- Identify and troubleshoot issues related to compute,networking, or storage services.
- Documentation: Maintain documentation of cloud infrastructure setup,workflows, and deployments.
- Collaboration: Work closely with DevOps, development, and security teams to support deployment and release cycles.

Cloud Computing Intern
Digilooks Healthcare| Aug 2022- Dec 2022

- Coordinated design, development and upkeep of cost-effective, highly efficient AWS, GCP and Azure cloud solutions.
- Architected standardized CI/CD pipeline for all DevOps, including tool selection and vendor negotiations.
- Collaborated with team of DevOps engineers in maintaining, upgrading and troubleshooting AWS apps.
- Partnered with security teams to plan and execute in-depth AWS security assessments.

EXTRA-CURRICULAR ACTIVITIES

Design a Mental and Curriculum e-book at Digilooks Healthcare
