SUMMARY

I am a translator of English and German language. I build on experiences. And on dreams. I decided to become a translator out of a crystal clear vision. The sea, the sailboat, the bay, the laptop and the feeling of calmness.

Work requires lots of time and effort, but also the opposite. After I stopped associating work with compulsion, renunciation and suffering, I became better. After the negative thoughts were gone, new and better opportunities, learning, development came in. And more moments of satisfaction. My goal is to provide top quality translations of all types of texts and by proofreading, bring quality and beauty into your texts.
