EXPERIENCE

Intern

Nakheel Oman Development Company

Apr 2020 - Present

An assignment for an internship for school, where I research the market of ICT software solutions in order to present the ones most suitable for the company. Consists mainly of desk research and constant feedback sessions with the company.

All-around Employee

McDonald's Breda Centrum

Dec 2017 - Present

Worked with people in the front, as well as had to be responsible for the workflow, when a shift manager is not around. From up close, I have observed many flaws of the logistics inside the restaurant and the franchise as a whole.

Junior Gastheer

Efteling *Nov 2015 - Nov 2016*

Being a Junior Host at the Efteling allowed me to practise my Dutch to the point of it being communicative, as well as improve my interpersonal skills by a large amount.

JAVA Developer Intern

Interia.pl *Oct 2014 - Dec 2014*

An internship for high school. Creating mobile applications in JAVA, as well as troubleshooting an already existing application.

EDUCATION

International Logistics Engineering

NHTV/BUas *Sep 2015 - Present*

Student of Logistics Engineering, with Proficiency English classes.

ICT

Technikum Łączności nr 14 w Krakowie

Sep 2011 - Jun 2015

Vocational High School with a focus on Information and Communication Technology. Finished a two years minor specialization within the course for "Mobile and Web Application Development"
