Dr. Shubhangi

"Boost your immune system - it's the best line of defense against any illness."

More than at any other time, you've probably heard this line most when the whole world was affected by the Covid-19 pandemic, people quickly realized the importance of a strong immune system.

But here's a fun fact - Homoeopathy has been working on this very premise for over 200 years!

Homoeopathy believes that the human body is intelligent and has a defense system to heal itself from any disease or disorder. All that's needed is proper management to treat ailments.

I've been practicing Homoeopathy for the past 25 years strengthening immune systems and treating diseases from the root.

My motto is "Say no to temporary relief!" We live in a time where we seek instant gratification. Unfortunately, this also extends to our aches and pains.

We crave instant relief and often take pills to suppress the pain; little understanding the side-effects, sometimes even dangers involved!

For instance, if the body is feverish, most of us immediately take a pill. We want to alleviate our discomfort, forgetting that fever is a sign of the body's healing process.

This tendency to target and suppress symptoms without proper diagnosis often leads to more complications.

I've treated more than 25,000 patients across the globe using an individualized treatment approach that is holistic, scientific, and completely safe to use.

In addition to the symptoms, I also take into account your mental, physical, and emotional states to tailor-make a treatment only for YOU.

Psychological disorders

All About Medicine Chest

At Saksham Homeopathy Clinic, we curate The Medicine Chest for every patient under comprehensive cover. These contain medicines that you can use during medical emergencies at home. We provide guidance over the phone on how best to use the medication.

Each Medicine Chest comprises of two kits:

- **The General Kit:** This includes a set 39 effective medicines. These are useful against common ailments, insect bites, stings and in a shock condition. For example Paralysis attack, headaches, allergies, coughs and colds, bruises, respiratory tract infections, pediatric ailments, digestive problems, female health issues, and the like.
- **The Customised Kit:** This kit is assembled after a thorough study of you, your family history, existing health issues and overall well-being.

For instance, if you are prone to diabetes, the kit will contain all the medication you need. Not just as part of your daily treatment, but also medication that can come to your rescue in situations of sugar spikes or drops, strokes or heart attacks.

Our Most Popular Package: Annual Comprehensive Cover

What makes it so popular?

- A Saviour in Emergencies

In emergency medical situations, every second matters. So we have curated a comprehensive package for our patients. It has over 40 essential medicines + around 10 personalized medicines based on the person's needs that can be administered during medical emergencies. This first aid for accident victims, during heart attacks, high BP etc. can help save lives. Patients who have our annual comprehensive cover can start the treatment immediately with the help of the medicine chest.

- Saves time

Having a annual comprehensive cover saves you time and energy. There's no need for repetitive doctor visits or renewal of prescriptions. With immediate, over-the-phone guidance our patients who have the Medicine Chest can start their medication with no delays.

- Protection from Coronavirus

The highlight of our comprehensive annual cover is the personalized medicine chest curated based on the patient's needs. This medicine chest had medicines for Covid-19, even before the pandemic hit us.

People who had invested in the comprehensive annual cover started their treatment without stepping out of their homes or waiting for medicines to be delivered. If you're worried about any mutations or a new outbreak, it's advisable to invest in a comprehensive annual cover and get your medicine Chest ready at home.

FAQs (Frequently Asked Questions)

What can I expect from a Homoeopathy consultation?

Unlike conventional medicines, where people with the same medical condition are usually prescribed the same medicines, Homoeopathy works differently. In Homoeopathy the focus is on individualized treatment.

We first consider your symptoms and other factors - emotional, mental, physical, and even, environmental. Based on each individual assessment, the course of medication, in the right potency and dosage is prescribed.

How soon can Homoeopathy medicines give me relief?

The effects of Homoeopathy medicines are rapid. In many cases, patients experience the effect in just a few minutes. However, the time required for symptom relief varies from patient to patient. It's important to remember that Homoeopathy stimulates the body's healing process.

If you're experiencing severe symptoms in early stage of disease, the body is ready to fight the disease. So, if the medicine is correctly prescribed, only a few doses can alleviate the pain in seconds.

How will I get pure Homoeopathy medicines?

At Saksham Homoeopathy Clinic we only prepare pure Homoeopathy medicines and pack them hygienically in classic glass bottles. We take all precautions and our medicine can be delivered to you, anywhere in the world.

Can Homoeopathy cure my illness permanently?

Homoeopathy treats you in a holistic manner. Therefore, it is advisable not to stop the treatment after relief of symptoms. It's best to continue treatment till your disease is cured at the root level. If you follow all advice, recurrences are rare.

Does Homoeopathy work in every medical condition?

Like any other medical system, homoeopathy has its limitations. But Homoeopathy has the power to treat and manage any disease under the Sun, including acute and chronic conditions. It improves the immune response of your body and consequently your quality of life.

So in the majority of cases, surgery can be avoided with proper Homoeopathy medication. Yet, in cases where surgery is unavoidable, homoeopathy can aid in pre and post-surgical treatment. For example, proper diagnosis and remedy can hasten recovery of fractures, injuries and also aid in several other ailments. 13.

What our patients say about us?

Mr. Sandesh Pokharna

I had the problem of Aasthama. I got results after treatment. Feeling lot better now. And fair charges also. One more thing good about doc is she took care of patients untill he is fully cured

Ms. Anita Mehta

I have been consulting Dr Shubhangi for almost 10 years now. My children have battled severe allergies, viral fevers, dengue etc and have relied completely on her medication for recovery. In November 2020 when I tested positive for covid, I consulted her and took her medications only for a complete recovery. Dr Shubhangi is readily available on phone and very responsive. I have communicated with her at odd hours in the night when my children have had high temperatures and she has been very committed. Her approach towards treatment is holistic in nature, focusing not only on the right medication but also on the right diet and a heathy exercise routine. She has become the go-to person for any ailment in my family and I can't thank her enough in helping me ensure that my family stays healthy.

Ms. Astha Khilwani

Thank you is a small word for Dr. Shivangi ... She helped my mom come out safe after a severe bout of covid and its after effects. Today my entire family is under her guidance.

Ms. Sadhana Sancheti

I am from Pune. I got her reference from my colleague. I had the problems of back pain and with sleep in nights. She diagnosed me over phone. Got results . Thankyou Dr. Shubhangi.

Laura Semons

My father was in severe stomach pain. He was admitted to hospital. Had lots of tests and medication but nothing helped. Yesterday evening around 8 pm we contacted Dr Shubhangi. She very patiently and carefully listened all the problems . And suggested some medication from the kit. And by 3 Am my father was feeling much much better. He didn't take food for last 3 days and suddenly he was asking for food at 4 am. It is not less than miracle for us

*A drop of Homoeopathy medicine can change
the quality of your life.*

Thank You

PHARMA
