

What exactly is tarot? How it works and sample questions that can be asked.

Tarot is a guidance tool, the main purpose of it is to show you the mirror of who you're, what you should do, what you should change, embrace and reflect upon in all aspects of your life right now to grow, be aligned and happier. It's to help you be a better version and doesn't predict your future and time lines, it's purely to tap your energies and help you create a better future with current real time actions and not predictions ! You get more direction in life to be able to navigate correct choices.
