SELFLANE

Software for Main Street Businesses

Hundreds of main street businesses use Selflane's software to process sales online and in-store, handle deliveries, manage staff, and organize their businesses. We bring together everything required to run a local business in one system.

No Gimmicks, Just Great Business

ONLINE ORDERING

- > No commission fee on online sales for both pickup and delivery
- > Print orders directly to the kitchen
- > Edit menu, prices, hours in real time
- > Highly praised delivery services (available in selected cities)
- Add a POS system and unlock all the extra features

Intelligence

Gives you the freedom to monitor your sales remotely and to stay on top of your business with real-time reporting and notifications.

Highly Scalable

From mom and pop shops to large chains with millions of dollars in annual sales, Selflane provides solutions that continually meet the needs of your growing business.

Fastest-improving Products

Upgrades and improvements are installed automatically so you can focus on your business and stay current with industry best practices.

POS SYSTEM

\$29.99⁺/MONTH

- > No limit on the number of stations. The cost is per restaurant
- ▶ 100% owner and staff satisfaction
- > Easy and fast training
- > Fully compatible with all major payment processors
- > Register stations, drive-thru, and on-the-go stations available

Reservation and Waitlist

Take reservations online or in person. Notify your customers by text when their table is ready.

Delivery Service

Unique commission-free delivery services. Currently available in New Mexico and Waterloo, Canada. More cities will be coming soon.
