Overview

Our Community Guidelines outline what type of content isn't allowed on Scorefol.io. These policies aim to make Scorefol.io a safer community and apply to all types of content on our platform, including videos, links, thumbnails and all future features that will be integrated into our service.

We enforce and apply these Community Guidelines to everyone equally—regardless of the user's background, political viewpoint, professional affiliations and so on.

Spam and Deceptive Practices

SPAM & SELF PROMOTION

Scorefol.io encourages promoting your work, connecting with like-minded community members, and developing an outside audience for your music through sharing links to your works and composer/artist profile.

However, we also aim for Scorefol.io to be a spam-free site. Please don't engage in a behavior that fits any of the descriptions noted below.

- Post content that is excessively posted, repetitive, or un-targeted
- Repeatedly "like" (♥) and "unlike" (♡) the same work in a short amount of time, or in order to draw attention to your own profile

FAKE ENGAGEMENT

Scorefol.io doesn't allow anything that artificially increases the number of views and likes either by using automatic systems or serving up the content to unsuspecting viewers. Please don't engage in a behavior that fits any of the descriptions noted below.

- Code and/or use automated bot services in order to artificially inflate view counts
- Create multiple accounts with the intention of inflating the popularity of an uploaded work
- Include links or language in the description that promises to sell/offer engagement metrics

Please note that regardless of how it is accomplished, inorganically inflating one's view count and likes may result in immediate account termination.

IMPERSONATION

Content intended to impersonate another person or entity is not allowed. Please don't post content if it fits any of the descriptions noted below.

- Entity impersonation: Copying another entity's profile, background, or overall look and feel in such a way that makes it look like someone else's profile and/or upload. The resemblance does not have to be 100% identical, as long as the intent is clear to copy the other entity.
 - For example, a user cannot copy Score Follower and/or Incipitsify's recognizable color gradients in their thumbnails making it seem like the content is coming from Score Follower.
- Personal impersonation: Content intended to look like someone else is posting it.

EXTERNAL LINKS

Don't post links in your content on Scorefol.io if they fit any of the descriptions noted below.

- Links to pornography
- Links to websites or apps that install malware

- Links to websites, apps, or other information technology that give unauthorized free access to audio content, audiovisual content, musical scores, software, or streaming services that normally require payment
