## WELCOME

Al-Sa'ee Engineering is one of Pakistan's small but fast growing steel fabrication units, providing engineering solutions hosting by competent young players.

Comptany's core competency lies in Light and medium & Heavy Steel Fabrication. Managers ensure compliance with laws, regulations and permits relating to HSE, which is maintained across all Al-Sa'ee Engineering operations. Our goal is to fabricate and supply high quality steel products to our customer by following four indispensable goals; High quality products and services, Customers satisfaction, Offer competitive price and Delivery on/before target date. We continually improve our business process to maximize value for our

# OUR VISION

“To become a prominent Sharia compliance business name of Pakistan working under principals of Islam and professional ethics.”

# OUR MISSION

To supply quality Products, Services and Consultancy of diversified nature related to ENGINEERING in reduced cost and delivery time. We intent to create employment opportunities for the unem-  
ployed youth of the country, and follow the best ethical and industrial practices to satisfy the needs of the Customers.

# SAFETY POLICY

Our primary and continuing commitment to conduct its activities in a manner to ensure, the safety and health of its employees, its customers and others affected by its activities, the protection of the environment; protection of employees, capital, information and other assets from deliberate harm,

# ► Portfolio

## Steel Tank

Far Eastern Impex Pvt. Limited  
S. Zia-Ul-Haq & Sons  
Al-Hamd Engineering

Al-Sa'ee Engineering offers SS (stainless steel) and Mild Steel (MS) Tanks manufactured at ASME and API specification to ensure the most dependable environmental protection on ground steel storage tanks. We do a wide range of tanks fabrication including but not limited to skid and without skid, vertical and horizontal, truck mounted, wall mounted tanks with all fittings, specialized certified welders, fitters and fabricators team work to achieve the high quality targets.

## Portable Cabin

DG Khan Cement Pvt. Limited  
S. Zia-Ul-Haq & Sons  
Saeed & Sons

Al-Sa'ee Engineering is providing the best turnkey, hassle free, Portable cabins and structural steel detailing, fabrication and erection services.

We currently extended our services to Bolted Joint Modular Building System, light weight steel structures and sandwich panels portable cabins for remote areas and oil and gas sector

## Industrial Piping

Novatex Limited

Al-Sa'ee Engineering offers piping in all types of ferrous and nonferrous materials which mainly include Carbon Steel and Stainless. To ensure consistent high quality, our workmanship meets Welding Procedure Specifications (WPS) for these types of material. Our welders are coded and certified to in-house procedure qualifications. Our reliable, high-quality fabrication facility and specialists meet the pipe fabrication needs of automotive, chemical, food, healthcare, pharmaceutical, and steel facilities, as well as power generation and central utility plants. the 1500s,

## Interior Office Designing

Patel Hospital Foundation  
Intellect School

At Office Interior Concepts, we take a consultative approach to office design. Lighting lux balancing, false ceiling combination with LED lights, Glass works, floor decoration with vinyl flooring, ceramic or fiber tiles make the interior design awesome with Al-Sa'ee workmanship.

## Mega Projects

Usman Global International  
T & D Textile Faisalabad

We extended our product range by adding PEB (Pre-Engineered Building) for Warehouse, Banquette, sorting/manufacturing facility, Hall, shopping Malls, exhibition center etc. We do erection activity with the help of cranes or sometimes by jacking, lifting and placing components into position. Additionally, to secure the components in place, bolted connections are made similarly, bracings may fully balance the building. Aligning the structure principally by checking that column bases are lined and leveled and columns are plumb. Low Cost, robust design, light weight, secure designing to avoid wind pressure, jerks and earth quake effects, we consider it the best solution for our customers.

## Shed parking

Kar Saz

Al-Sa'ee Engineering offers parking sheds that are fabricated using optimum quality raw material and equipment, to ensure their adherence with high standard. These products are manufactured by utilizing latest machinery and technology to ensure the quality and durability of the products. Automated and conventional parking shed are suitable for our customers for waiting areas, car parking, parks sitting, Bus stops etc.

# Piping:

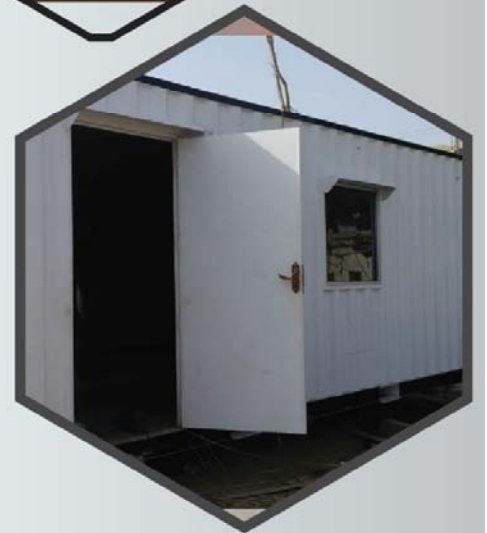

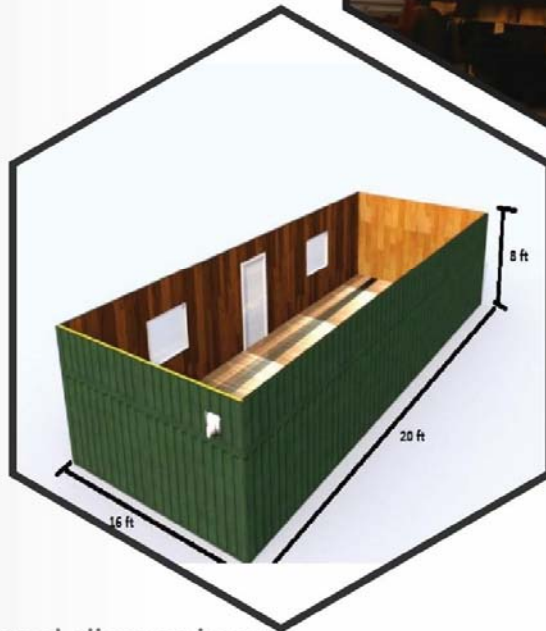

Al-Sa'ee provides piping design and engineering services to engineering contractors and customers for a variety of refinery, offshore, petrochemical, water, and industrial projects with efficient piping design services solutions that meet international codes and standards. Our specialist skills help organizations from around the world to optimize the space consumption within the plants by 10-15%, especially for skid design packages installed in tight enclosures.

As a process piping engineering design company, we have a proven track record of completing projects in stipulated time-frame that offered tremendous cost benefits. So whether your requirement is for pipe spool design, process piping design or developing a complex process plant, we provide an unmatched practical and technical acumen to make your project

# Portable Cabin

is engaged in manufacturing of relocatable Portacabins, Portable Toilet, Portable Cabin and Standard Shipping Container Cabins. Ours is a team of professionals and skilled workers, who work tirelessly to create impressive designs with professional attitude and creative intellect. We have a sound infrastructure, equipped with all the requisite facilities for cutting, fabrication, assembling and polishing of the raw material.

- Uniformity of panel dimensions
- Constant and proven mechanical properties
- Smooth internal & external finish
- Excellent resistance to Ultra Violet Light
- High strength to weight ratio
- Engineered for easy and quick installation and commissioning
- Long service life
- No maintenance

# Pre Engineered Buildings

We use imported material in the manufacturing that are imported from various locations around the world (Australia, UK, and Kingdom of Saudi Arabia). Our staff went extensive training and has wide experience in large EPC (Engineering, Procurement and Construction companies).

## Applications of PEB

- Warehouses
- Convention Centers
- Sports Arenas
- Workshops
- Labor Camps
- Distribution Centers
- Aircraft Hangars
- Poultry Farmhouses
- Office Buildings

# RO Plant

Al-Sa'ee Engineering can design and supply a range of water treatment equipment from pressure filters to ozone disinfection equipment to reverse osmosis & ultrafiltration.

## Water Treatment Services:

Drinking Water Treatment Plant  
Iron Removal

Demineralization Plant  
Reverse Osmosis (RO)

## Membrane Treatment Services:

Reverse osmosis systems are used to purify water and remove salts and other impurities from tap and brackish water. This process is capable of rejecting bacteria, sugars, proteins, particles, dyes, and other dissolved constituents. Our largest tap and brackish water units are offered with media filters, chemical dosing, and anti-scalant and are customized to fit individual applications.

# ► Interior & Civil

## Interior Design

Interior designing of a home or office furniture and interior decoration can be hefty. We have a professional guild of Architects for the whole interior constructions and designing for your place. The best Interior Designers in Pakistan is the definition of our endeavors.

## Commercial Design

Our commercial displays never fail to bring fame with our name! Our clients always leave with content and recommendations from our doorstep. Never in our history did we go easy with any responsibility we took and the big names that associate with us as our valuable clientele are a cherry on the top.

## Office Table Design

Office Designs in Pakistan is also becoming a concern for the ever growing In-house Market and that's where we relax their nerves. We have expertise in corporate Space Planning and Designing as per the needs of clients.

INTERIOR DESIGN  
&  
DEVELOPMENT

## Civil Construction:

This business unit undertakes a broad range of heavy civil, infrastructure, roads and earthworks contracts for Both public and private clients, operating in Karachi and interior. Key services include: Paver Work on roads, Civil Foundation Work for PEB, Residential Buildings, Block Masonry Work, Fencing and barricade Wall etc.

## Our History in Construction:

It undertakes an extensive range of civil construction projects, with the ability to handle contracts valued under PKR 10 million to major complex works in excess of PKR 50 million. Our highly experienced management and engineering teams work in close collaboration with clients, project managers and principal consultants from preliminary design to ultimate completion. We maintain a large modern fleet of plant and equipment including excavators, articulated dump trucks, dozers, graders, rollers, and loaders which provide operational efficiencies in the delivery of projects, which ultimately provides cost saving benefits to our clients. Our skills, knowledge, experience and personnel, combined with our pre-qualifications, and accreditations allow us to undertake a variety of works to provide innovative cost effective solutions to our clients.

# ► Our Clients

## Conclusion

AL-SA'EE ENGINEERING is a next generation Manufacturer and Innovative Experts in the field of PORTABLE CABINS, OIL TANKS, WATER TANKS and Steel structure manufacturing.

**A**

Our team comprises of professional engineers who have experience of manufacturing. We also offer fabrication of different types of steel items with complete designing and calculations. We focus on target with no compromise on quality and safety.

**B**

Recently, AL-SA'EE ENGINEERING has extended its product range to include PEB (Pre-Engineered Building) and light gauge structure (LGS).

**C**

We are offering only Halal Business Solutions under the guidance of Sharia Principles. No hassle in delivery procedure and Cost involved in various activities Unlike other competitors whose shipment may get delayed (due to various reasons – normally longer lead time, e.g. Shipment, clearance etc).

**D**

We also provide Turnkey Solution – One Window Operation from Civil, Mechanical Works, Electrical Works etc.)
