SIMPLE OLYMPIAD

National & International Online Competition Platform

Welcome to Simple Olympiad!

Dear Sir/Madam,

Simple Olympiad is a state-of-the-art digital ecosystem designed to bring the world's most talented young minds onto a single, unified competitive stage. Our platform transforms traditional mental arithmetic into a dynamic, borderless experience where skill is the only measure of success.

The Problem We're Solving For years, Abacus and Vedic Mathematics competitions have been confined within individual institutes. A student excelling in their local coaching center had no way to test their abilities against peers from other organizations. Competitions were limited, rankings were isolated, and true merit often went unrecognized. This fragmented approach limited growth and unfairly restricted opportunities for talented young mathematicians.

Our Vision: One Platform. Equal Opportunity. Global Recognition.

Simple Olympiad changes this. We are building a **unified, open competitive platform** where:

- Students from **any institute, school, or background** compete on equal footing.
- A child from a small town can compete with students from major cities and metro centers.
- Merit is recognized **fairly and transparently**, regardless of coaching center affiliation.
- Rankings are **State-level, National-level and International-level**, not limited to a single organization.

Why This Matters For decades, organizational silos have prevented healthy competition and fair skill assessment. Simple Olympiad breaks these barriers. We believe that competition should be about skill, not affiliation, and every talented child deserves recognition across state and national boundaries.

Our Invitation to You We cordially invite you, Sir/Madam, to encourage your students to participate in this event and take advantage of this platform to demonstrate their speed, accuracy, and analytical abilities. Together, let's create a level playing field where the entire Abacus and Vedic Maths community grows stronger and more united.

Simple Olympiad – *Breaking Silos. Building Champions. Uniting India's Math Talent.*

1. How to Participate

A. Requirements for Registration:

Student Details Needed:

- **Full Name**
- **Date of Birth** (to determine age-based category)
- **Valid Email ID** (Gmail, Outlook, etc.)
- **Mobile Number** (WhatsApp Number)

B. Quick Steps to Register: (Sign up for Free)

- **Visit:** Go to https://www.simpleolympiad.com and click **"Sign Up"**.
- **Basic Login:** Enter your email, create a password, and verify via the link sent to your inbox.
- click **"Create Account"**.
- **Profile Setup:** Fill in the student's name, DOB (for category placement) and other details.

Success! Your account is now active, and you can access your dashboard immediately!

2. Categories & Subcategories

1. Categories (Based on Syllabus Topics)

Students can select their favourite topic based on the syllabus, such as:

- 1-Digit Addition & Subtraction
- 2-Digit Addition & Subtraction
- 3D x 3D Multiplication

2. Subcategories (Auto-Assigned)

Each syllabus category includes multiple structured sub-levels. The system **automatically assigns** the appropriate subcategory based on the student's profile details, primarily:

- **Age Group** (e.g., 5-7, 8-10, 11-13, 14+ years)

Note: To get more details for the specific categories and subcategories of Abacus and Vedic Math, please refer to the separate attachments provided.

- ***Attachment 1 - Abacus Category***
- ***Attachment 2 - Vedic maths Category***

3. Exam-Related Information

A. Account & Registration Requirements

Profile Completion Deadline:

- Students **must complete their registration profile** and fill all required details **within 24 hours** of initial registration.
- **Failure to comply will result in automatic account deletion.**

Email Requirements:

- Parents/coordinators are advised **not to use official or institutional email IDs**.
- Use only **valid personal email IDs** (Gmail, Outlook, etc.).

Name Accuracy:

- Ensure the **student's name is entered accurately** during registration.
- This exact name will be printed on certificates and award documents.

B. Category Responsibility

- It is **mandatory** for teachers, parents, and coordinators to:
  - Clearly understand the **appropriate eligibility category** for each student.
  - Verify age and skill proficiency **before competition registration**.
- **Note:** The number and structure of categories **are subject to change** at the discretion of the organizing authority.

C. Practice Papers & Access

Complimentary Access:

- Upon **successful competition registration** and completion of all formalities, students receive:
  - **Complimentary set of 60 practice papers** (one-time access).
  - **Validity:** Once purchased/accessed, practice papers are valid for **90 days only**.

D. Practice Package Pricing:

- **₹99** – for 60 practice papers
- **₹198** – for 120 practice papers

4. System Requirements for Online Examination

◆ **Operating System Requirements**

- **Outdated OS not permitted:** Windows XP, Windows Vista are strictly prohibited.
- **Required:** All devices must run the **latest stable version** of their respective operating systems:
  - Windows, macOS, Android (latest version)

◆ **Compatible Devices**

The examination can be attempted using:

- Desktop computer, Laptop, Tablet, Smartphone

◆ **Browser Requirements**

- **Browser:** Google Chrome (latest version only)
- **Mandatory:** Update your browser to the latest version before the exam.
- The examination platform is optimized exclusively for Google Chrome.

◆ **Hardware Specifications**

Minimum Configuration Required:

- **Processor:** Dual-Core (or equivalent)
- **RAM:** At least 4 GB
- **Recommendation:** Higher specifications are advised for optimal performance.

◆ **Internet Connection**

- **Minimum Speed:** 4 Mbps (both upload and download)
- **Connection Type:** Wi-Fi (broadband) **strongly recommended** for reliability and stability.

- Ensure a **stable connection** throughout the examination.

◆ **During Examination**

Participants must ensure:

- **No downloads or updates** running during the exam
- **No bandwidth-heavy applications** running in the background
- **No system updates** occurring during the examination
- Device, internet connection, and all hardware are **fully functional** before starting

◆ **Webcam Requirements**

- **Mandatory:** A functional webcam is **compulsory** for the final examination.
- **Automatic Verification:** The system will perform an automatic webcam check upon login.
- The exam will **only proceed after successful webcam detection**.
- **Last-minute webcam issues will not be considered** during result processing.

◆ **Examination Location & Responsibility**

- **Where:** Examination can be taken from home or any suitable location with stable internet.
- **Your Responsibility:** Ensure your device, internet connection, and hardware are fully functional **prior to the examination**.
- **Important:** Simple Olympiad will **not be responsible** for any technical or connectivity issues at your end.

◆ **Re-Examination Policy**

- **No re-examination permitted** under any circumstances.
- **No exceptions** for technical failures or connectivity issues.
- **Webcam failures will not be considered** as grounds for re-examination.

5. Results & Certification Policy

◆ **Result Declaration Timeline**

- **Results declared:** Within **7–8 days** after the examination.
- **Access location:** Student's account → "Leaderboard" section (Competition-wise Results).

◆ **Result Validity & Evaluation**

- **System-generated:** All results are automatically generated based on standardized evaluation criteria.
- **Final & Binding:** Once declared, results are **considered final**.
  - No queries, re-evaluations, or disputes will be entertained.

◆ **Certificate & Prize Distribution**

- **Dispatch address:** Certificates and prizes will be dispatched **only to the registered Teacher's address**.
- **Collection:** Participants must coordinate with their respective Teacher to collect their certificates and prizes.

◆ **Special Courier Requests**

- **Additional charges apply:** Any special courier or delivery requests will be subject to:
  - Extra courier charges

- Handling fees
- Packaging costs

◆ **Prize Dispatch Timeline**

- **Start date:** The company will begin dispatching prizes **approximately one month** after the declaration of results.
- **Collection point:** Winners can collect their prizes from Their respective Teacher or Coordinator

Note: Ensure your registered details (especially shipping address) are accurate and up to date to avoid delivery complications

6. Student Evaluation & Ranking Criteria

◆ **Evaluation Methodology**

Students are evaluated based on **both performance metrics**:

- Maximum marks achieved
- Minimum time taken to complete the examination

◆ **Award Distribution**

- **Award coverage:** Approximately **15% of participants** in each sub-category.
- **Distribution depends on** the total number of students in that sub-category.
- **Example:** For 100 students in sub-category A1:
  - Top 15 students (15%) receive awards

◆ **Award Structure & Eligibility**

Top Awards (for students scoring ≥75% marks):

Rank	Award	Eligibility Notes
Champion Award	Trophy + Winner Certificate	**Only for students with 100% marks** AND the fastest completion time within the sub-category. Only ONE Champion per sub-category.
1st Rank Award	Trophy + Winner Certificate	Next highest rank after Champion
2nd Rank Award	Trophy + Winner Certificate	--
3rd Rank Award	Trophy + Winner Certificate	--

Additional Awards:

- **Appreciation Award:** Trophy + Winner Certificate for qualifying students within the top 15% but below top 4 ranks.

◆ **Minimum Qualifying Criteria**

- **Top 4 ranks:** Students must score a minimum of **75% marks**.
- **Award validation:** Awards granted **only if** qualifying criteria are met.
- **Participation Award:** Students who don't meet qualifying criteria receive:

- Participation Trophy and Participation Certificate.

◆ **Special Case**

- **Small sub-categories:** If a sub-category has **fewer than 12 participants**, the ranking structure may be revised.

Fair Tie-Breaking System

1. Primary Criterion: Maximum Marks

- Students are ranked **by marks only** initially.
- Higher marks = better rank.
- No tie-break based on speed until marks are exactly identical.

2. Secondary Criterion: Minimum Time

Applied **only when two or more students have exactly the same marks**:

- The student who finishes in **less time** gets the higher rank.
- **Example:**
  - Student A: 95 marks, 8 minutes
  - Student B: 95 marks, 9 minutes
    → **Student A ranks higher.**

3. Exact Same Marks + Same Time

For the **rare case** where students have **identical marks AND identical time**:

- **Shared Ranks**.
- Both students receive the **same rank** (e.g., both are "1st Rank").

Important Reminder: All rankings are system-generated and final. No queries or disputes regarding rankings will be entertained after results declaration.

7. Simple Olympiad Policies

◆ **Rights & Modifications**

Simple Olympiad reserves the full right to modify **any of the following** at any point in time without prior notice:

- Examination pattern
- Syllabus content
- Exam dates
- Competition-related details
- Award distribution
- Fee structure
- Any other aspects of the Olympiad

◆ **Encouragement for Participation**

- We look forward to **receiving maximum registrations** from your institution.
- We welcome **enthusiastic participation** from all students.
- **Feel free to share** this information with other interested schools and students.
