PRESCHOOL TRANSPORTATION

There is no state mandate that Iowa Schools provide transportation to preschool students. At Southeast Valley, we believe in the value of early childhood education will try to assist families any way we can when it is possible. The following list, but no limited to will be considered when considering preschool transportation; cost of transportation, availability of drivers, availability of vehicles, time on the bus for the other students.

- Generally, preschool students will ride the regular bus on the AM and PM routes. Noon routes will be specialized
- Preschool students must be picked up on the regular route. If a preschool student does not live on the regular route, the parents must make arrangements for pick up and drop off locations.
- We will only consider state certified daycares having multiple students.
- If limited pick up and drop off locations become available, we will give precedence to the daycares we have worked with the longest.
- The district reserves the right to cancel transportation for preschool students or daycares at anytime.
