## About me

Highly motivated, proactive team player who feels comfortable in dynamic atmosphere, I am eager to contribute towards building a healthy work environment and be a valuable asset to my team.

I am highly interested in web development as a career and I mainly want to focus on creating interactive, responsive pages in order to facilitate the web browsing experience of the site's visitors.

- ReactJS
- CSS/SCSS
- Material-UI
- Redux
- Prisma
- PostgreSQL
- Gitlab

# STOYAN SPASOV

## JavaScript Developer

## Experience

August 2021 - present

### JavaScript Developer

FEIA България

Creating dynamic, responsive and intuitive web applications.

I am part of the team that is developing feia.bg - an app that aims to help pregnant women, young mother and parents raising their children.

My main responsibilities in the project are:

the creation of the UI components for web applications, integration of the mobile view to the existing functionality and overall functionality of the project.

**Technologies:** React.js, CSS, HTML and GitLab

I am also a major part of the team that builds the admin panel. Through this admin panel, the marketing department will be able to manage the data themselves, run ads on their own, for the Feia pregnancy mobile app.

**Technologies:** JavaScript, React.js, Node.js, Express.js, PostgreSQL, Prisma ORM.

13.03.2022 - 05.30.2022

Freelance

 <https://medcentertrinity.com/>

A single-page application designed to introduce Medical Center Trinity. To show their doctors, services, and weekly interesting blog post in their blog.

**Technologies:** React.js, HTML, CSS, Redux, GitHub

May 2019 - November 2019

### Junior Graphic Designer

Leverage Shares

Creating design ideas that facilitate sending Leverage Shares' message across.

Creating advertising and marketing initiatives of the Company by providing designer graphics.
