

# Privacy Policy

Your privacy is important to us. It is Syncology's policy to respect your privacy regarding any information we may collect from you across our website, <http://lms.syncology.tech>, and other sites we own and operate.

Our policy complies with the limited use requirements

1. **Allowed Use:** Developers are only allowed to use restricted scope data to provide or improve user-facing features that are prominent from the requesting app's user interface. It should be clear to your users why and how you use the restricted scope data they've chosen to share with you.
2. **Allowed Transfer:** Developers are only allowed to transfer restricted scope data to others if that transfer is (a) necessary to provide or improve user-facing features that are prominent from the requesting app's user interface, (b) to comply with applicable laws, or (c) a part of a merger, acquisition or sale of assets of the developer. All other transfers or sales of user data are completely prohibited.
3. **Prohibited Advertising:** Developers are never allowed to use or transfer restricted scope data to serve users advertisements. This includes personalized, re-targeted and interest-based advertising.
4. **Prohibited Human Interaction:** Developers cannot allow humans to read restricted scope user data. For example, a developer with access to a user's data is not allowed to have one of its employees read through a user's emails. There are four limited exceptions to this rule: (a) the developer obtains a user's consent to read specific messages (for example, for tech support), (b) it's necessary for security purposes (for example, investigating abuse), (c) to comply with applicable laws, and (d) the developer aggregates and anonymizes the data and only uses it for internal operations (for example, reporting aggregate statistics in an internal dashboard).

We only ask for personal information when we truly need it to provide a service to you. We collect it by fair and lawful means, with your knowledge and consent. We also let you know why we're collecting it and how it will be used.

We only retain collected information for as long as necessary to provide you with your requested service. What data we store, we'll protect within commercially acceptable means to prevent loss and theft, as well as unauthorized access, disclosure, copying, use or modification.

We don't share any personally identifying information publicly or with third-parties, except when required to by law.

Our website may link to external sites that are not operated by us. Please be aware that we have no control over the content and practices of these sites, and cannot accept responsibility or liability for their respective privacy policies.

You are free to refuse our request for your personal information, with the understanding that we may be unable to provide you with some of your desired services.

Your continued use of our website will be regarded as acceptance of our practices around privacy and personal information. If you have any questions about how we handle user data and personal information, feel free to contact us.

This policy is effective as of 1 January 2020.
