SKILLS

React Native
I have an incredible track record of developing performant apps using React Native & Expo, a software framework used to create cross-platform apps

TypeScript
Typescript is one of the core skills in my tool-kit as it ensures type safety & avoids miscellaneous type errors

Node.js
If you need a custom backend for your apps, look no further. I can get a Node/Express server running in no time to provide the required data via API calls

Git
Git is a must-have skill if you plan to collaborate with others. I am not only well versed with Git & GitHub, but also one of the maintainers of The Algorithms - the largest Open Source algorithm library on the planet

Campus24, Software Development Internship
January 2020 – July 2020
Developed the Campus 24 Landing page & web-app that had over 1000 users/day

EDUCATION

Government College of Engineering and Ceramic Technology
August 2018 – July 2022
CGPA: 9.86/10

South Point High School
April 2003 – March 2018
Grade: 88%

TESTIMONIALS

Geoff Alan
June 2023
"Tap is simply a brilliant coder. He is easily one of my top 3 hires (from over 500 hires on Upwork). I strongly recommend him. His communication is perfect and he works quickly. His code is great quality. He is honest and cares about his clients."

Fabrizio Rinaldi
January 2023
"Had a really great experience working with Tap. Even before starting the contract he was already experimenting in a code sandbox and studying the project. He has good communication skills and delivered the work in the estimated time."

Jack Symonds
December 2022
"Tap is an exceptional software engineer. He worked in my team for nearly a year, and consistently performed to an extremely high level. In particular his strengths are his attitude, speed to output, intellectual curiosity and ability to learn new things. I can't recommend Tap highly enough!"

Tina Haibodi
November 2021
"Tapajyoti was great and not only completed the job to the best of his ability but under the allotted time and budget! He was quick to communicate about issues and think on his feet. Great to work with!"

Christopher Robinson
September 2021
"This is the second time working with Tapajyoti and I could not be happier. He is extremely easy to communicate with and delivers projects quickly. It is hard to find good talent and Tapajyoti is very talented!"

Brent Ramirez
September 2021
"Amazing front-end developer. Tap helped build out our web app and will add value to any future project he works on. Works quickly. Easily adaptable. And helped form solutions to problems that popped up along the way. We'd happily hire him again"

November 2020

"Tapajyoti is one of the most sincere and hardworking people I ever met. He always delivers on time and is ready to take up the next challenge. He will be an asset for any team. Wishing him all the best for his career."

INTERESTS

Open Source Contributions

I enjoy contributing to Open Source Projects and have a few contributions to some huge libraries like Material UI, Numpy, Amazon, Microsoft & others under my belt

Latin dance

Recently I have been regularly taking Latin (Salsa / Bachata / Kizomba) lessons & enjoy grooving to the beats

Traveling

I love to travel. So far, I have been to numerous solo trips & multiple ones with friends and family. I usually have 2 - 4 international trips each year

Break dancing

I am a mentee of one of the top break dancers in India, B-Boy Xplod. I have a knack for working on freezes & power moves. Currently working on nailing the wind-mill

Investing

I am a huge advocate of FIRE (Financial Independence Retire Early) and take great pride in being able to save and invest over half of what I earn
