

The Best Performing Pressure Tank in the Industry

The World's First Robotic Tank Manufacturing Line

The Hydrotech NSF Certified fiberglass reinforced pressure tank is designed to eliminate any potential leaks since there are no welds, joints, or seams in the tank liner.

Each tank is wrapped with miles of continuous, high-strength glass rovings with the most advanced, computer-aided winding equipment in the world.

Hydrotech tanks offer unmatched strength, finish, durability and resistance to temperature and corrosion.

FEATURES:

- Fiberglass reinforced polyethylene tanks
- Blow-molded polyethylene liner wound with high performance fibreglass/epoxy
- Complete seamless molding technology
- Threaded inlet made from 30% glass-filled polypropylene (PP) for superior strength
- 1/3 the weight of steel tanks
- Attractive high-gloss finish
- Corrosion resistant
- Strict dimension tolerances
- All tanks are NSF/ANSI 61 Certified for Drinking Water System Components – Health Effects and NSF/ANSI 44 Certified for Materials & Structural Integrity.
- Solvent-free central tube with spun weld collector eliminates use of glue and solvents
- Sizes up to 13" available in natural and black sizes. 14" and above available in natural only.

Pressure Tanks Specifications

PROFESSIONALLY ENGINEERED FOR PERFORMANCE

Standard Pressure Tank Models												
Tank Size (in)	Item #		Volume			Weight (lbs)	Opening		Base	Dimensions(in)		
	Black	Natural	Liters	Cu.ft.	Gallons		Top	Bottom		La	Da	Db
