

Brine Tanks and High-Quality Tank Components

Our brine tanks and components are blow-molded from high-quality NSF approved high density polyethylene providing exceptional crack resistance. The seamless one-piece construction with molded handles makes for easy handling and tight fit lid for security.

BRINE TANKS FEATURES:

- Blow-molded from high quality NSF approved high-density polyethylene providing exceptional crack resistance
- Seamless one-piece construction with molded handles for easy handling and tight fit lid for security
- Stackable, lightweight design
- Brine valve with Safety (standard) or optional air-check
- Salt grid with removable legs for compact shipment
- 5 pieces/package
- 18.6 gal (70L) available only in square
- 26.5 gal (100L) available in square and round
- 38.4 gal (145L) and 53 gal (200L) available in round only. 38.4 gal available only in black and 53 gal available only in grey.
