

How do I follow an event?

Simply go onto an event and click the follow button. You will then be able to get notifications from the event.

An event is not on the app, how do I get them on it?

Simply have the event organiser get in touch with us and we can see if we can add them on.

How do I delete my account?

Simply go to the menu page and then edit profile. You can then click the delete button. This will delete any data associated with you from the server.

What is the Incident Response feature?

This feature gives organisers a way to find where you are when you click the button. It sends your current lat,lng as an incident. The organiser needs to turn this feature on in order for it to work. You also need location permission enabled for the app. This feature requires some internet connection.
