(Mobile book) 2 of 2 review helpful The best urban design book i ve read By Paul Anderson This book gets to the nuts and bolts of urban design And it speaks of broad but somewhat universal concepts that can be applied across a wide range of areas such as old cities of Europe to the suburbs of America I m just an American urban planning student but I loved it much more practical then some of the crap they teach us in school Thank This **Responsive Environments** is always there in my bag. So anytime it was easy for me to read **Responsive Environments** despite having read repeatedly.
