## Work Experience

- Jan 2019 - Dec 2021 Online, Remote

Twl Apps  
Front-end Developer

I was responsible for building captivating user interfaces, translating designs into high-quality code, and optimizing web application performance. One of my key responsibilities was translating design mockups and wireframes into high-quality HTML, CSS, and JavaScript or React.js / Next.js, Tailwind.Css code.

- Jan 2022 - Jul 2022 Online, Remote

Falcon Solutions  
Mobile App Developer

Responsible for developing cross-platform mobile applications for Android, iOS, and web, I utilized React Native to deliver seamless and engaging user experiences. Additionally, I occasionally created apps from scratch using Android Studio and Xcode, ensuring high performance and functionality across all platforms.

- Jul 2022 - Present Online, Remote, Freelancer

Upwork  
Front-end Developer

I specialized in crafting visually appealing and responsive user interfaces for various clients. My responsibilities included collaborating with clients to understand their requirements, translating design concepts into clean HTML, CSS, and JavaScript code, and ensuring seamless compatibility across browsers and devices. With a strong focus on user experience, I delivered high-quality frontend solutions to meet clients' unique needs and deadlines.

- Feb 2023 - July 2023 Hybrid, New York

We Outside  
Snr Front-end Developer

I led the front-end team, collaborated with design and backend team, optimized the architecture for speed and performance. Championing modern technologies, I mentored junior developers, conducted code reviews, and delivered successful projects that exceeded client expectations, contributing to the company's growth and reputation.
