

# Analytics & Support Sub-governance

Every day in the Free TON community there is a growing need for analytics and support for the community's problems: collect statistics, partnership proposals analysis, translations of non-English sub-governance contests and contest submissions, and other similar functions.

Due to the large-scale development of the network, the need for such tasks will only grow and cause a load. The purpose of this Sub Governance is to solve such problems.

## Tasks:

- Payment distribution support for global governance
- Partnerships analytics
  - Proposal analysis of disclosed metrics by partners.
  - 3rd party service provider contests for KYB ("know your business")
- Analysis of conflicts and incidents in the community
- Efficiency analysis of all sub-governances
- Contests statistics
  - Payout statistics
  - Participation statistics
  - Contest community reports
- Translations of non-English sub-governance contests and contest submissions
- Moderation of groups and user support

## Partitioned groups:

The above tasks can be divided by working sub-groups within the sub-governance.

For example:

- Payments - Free TON
- Contest stats & results
- Translations
- Partner analytics

## Proposal specification

As part of the creation of this Sub-governance, we propose to create the following:

1. Initial members are initial jurors until a jury selection contest takes place.
2. Initial members of this sub-governance will launch a jury selection contest.

3. Discussion of various cases that do not fall within the scope should be discussed in this sub-governance.
4. All suggestions and ideas made within this sub-governance will be submitted to the forum.

## Initial Members

Sub Governance Initial Members (with public keys):

## Expense estimate

To achieve the stated goals, the following budget is required for a period of 3 months:

#	Activity	Expense estimate
1	Translations	100,000
2	Partnerships analytics	50,000
3	Contest statistics and reports	40,000
4	Sub-governances liaisons. Sub-governance efficiency analytics.	35,000
6	Workflow	50,000

	<b>Total</b>	275,000
--	--------------	---------

\*Any excess funds that remain as a result of non-implementation will be carried over to the next period until fully spent.

## Disclaimer

Anyone can participate in any Analytics & Support Sub-governance procedures, but Free TON does not distribute Tons to US citizens or legal entities.
