

Rust Cup Amended Terms

It is proposed to make the following amendments to the original terms of the Rust Cup contest:

1. Increase number of winners from 200 to 300 and increase min and max lock stake size according the following formula (see Appendix 1):
 - a. $\text{max_lock_stake} = 600\text{k}$,
 - b. $\text{min_lock_stake} = 200\text{k}$,
 - c. $\text{lock_stake} = 600\text{k} * (1 - 2/3 * (\text{place} - 1) / 299)$.
2. Increase lock stake period from 2 years to 4 years in line with the maximum period in the incentive scheme for Rust Cup DePools.
3. Approve additional rewards to the participants for the warm up period in Feb-Jun'21: 3000 TON Crystals per month with 18 months vesting period (see Appendix 2). The validators with multiple warm up rewards may contact the contest organizers to consolidate their rewards into one beneficiary address.
4. Approve an additional reward to TON Labs for the contest infrastructure: 2 million TON Crystals with 18 months vesting period.
5. Approve the Bug Bounty rewards to the participants listed in the Appendix 3.
