Description

- The HashMain cloud mining platform allows you to lease both the hashrate itself and the entire power separately, which mine the following cryptocurrencies: Bitcoin, Litecoin, Dash, Ethereum.
- This platform is analogous and a copy of the functionality of the HashFlare.io platform, except for such functions as “reinvestment”, “pool allocation”, “debit card” and “vouchers”. The platform also implements the rental of power.

Functionality and features

1. Rent of Hashrate for a year: X11, SHA-256, Scrypt, EThash.
2. Rent of facilities. (Implemented pre-order functionality)
3. History of deposits and withdrawals for hashrate or capacity rental.
4. History of cryptocurrency deposits (mining income).
5. Section "Contracts": (Contracts for hash rate and capacity)
6. Referrals and materials for referrals (banners in different formats and in different languages)
7. Settings. (Similar to HashFaire.io)
8. FAQ, tickets.
9. The system of "orders" (for payment of the hash rate by bank transfers), the Capitalist service is connected.

Заработок с хешрейта

Название	Валюта	Количество за 1 GH/s	Процент отклонения	Количество за 1 GH/s (с учетом отклонения)	Остаток хешрейта
SHA-256	BTC	0.00000013	100%	1.3E-7	999.33 TH/s
Scrypt	LTC	0.14090583	100%	0.14090583	1 TH/s
ETHASH	ETH	0.14064947	100%	0.14064947	500 MH/s
X11	DASH	0.00041043	100%	0.00041043	993.34 GH/s

Admin panel

1. Hashrate management (volume editing)
2. Management of miners, creation and editing.
3. Multilevel system of accounts for managers.
4. A large number of statistics in different time frames and quality indicators.
5. Applications for withdrawal of funds.
6. List of unpaid orders.
7. List of users with detailed information about them, and their orders. (What I ordered, how much I earned, how much I invested, etc.)
8. System of promo codes for users.
9. Materials for referrals, filling in the "Media" section and FAQ, editing prices and a few more functions.

Brand

The platform was presented at the BlockChain Life 2017 conference in St. Petersburg.

The platform's logo has appeared in many online magazines, on TV and in social media. networks.

The conference was attended by Herman Klimenko, who was also photographed against the background of the HashMain logo.

(He has no relation to her, not direct, not indirect)
