

Free TON Wiki Contest Proposal: Jury Selection

Description

Create a decentralized **Wiki Jury** of up to 25 willing participants from the Free TON community who are willing to put in the time and efforts to study, interpret, analyze, vote, and deliver qualified feedback to contest submissions from contestants for the **Free TON Wiki Subgovernance**.

Type

Contest

Contest period

October 1, 2020 – October 15, 2020 (UTC time)

Motivation

In an effort to decentralize processes within the **Free TON Wiki Subgovernance**, the jury must be selected from the community. This will help achieve the goal of decentralized subgovernance for the Free TON Wiki.

Contest submission requirements

You must submit a curriculum vitae that demonstrates one, all, or some of the following:

- Be a member of the Free TON community and sign the Declaration of Decentralization.
- Be an active member of the Free TON Wiki community.
- Bring real benefit to growth of the Free TON Wiki.

Winner rights and duties

Winners will get the right to be a juror for each **Free TON Wiki** contest going forward and get the same reward as each contest describes for jurors. In order to get the jury reward described in each contest, the juror must do the following:

1. Each juror should review each contest and its requirements under "[Free TON Wiki Contests](#)".
2. The juror should review each contestant's submission (uploaded in .PDF format) and determine if each submission is within the scope of his or her understanding to judge it, and then vote as follows:

- a. If outside of juror competence, the juror should vote to “Abstain”.
 - b. If within juror competence, the juror should vote on a scale of 1-to-10 with 1 representing least and 10 representing most qualified submissions.
 - c. If the submission is inappropriate, the PDF file is unopenable or corrupt, etc., the juror should vote to “Reject”.
3. The juror should provide constructive feedback in the appropriate field describing the reason for their score.
 4. To reject the submission, only 50% +1 votes from those members of the jury who actually voted for this submission work are enough.
 5. The jury rewards will be distributed in proportion to the number of votes cast by each jury member.
 6. A judge has the right to vote in contests in which he/she participates, but he is not allowed to vote for its own submission. Self-vote will not be counted.
 7. Jury members who have not voted for 2 months are automatically expelled from the Jury without notice.

As any civic duty dictates, every juror must remain objective to the best of his/her abilities in regard to voting, i.e., stick to the facts and the facts only, leaving any personal feelings aside.

Voting for new jury

1. Each of the current members of the Wiki Jury (originally the Wiki Initial Members) can vote for any submission (candidacy) to become a Wiki Juror.
2. Each juror will vote by rating each submission on a scale of 1 to 10 or can choose to reject it if it does not meet the requirements, or they can choose to abstain from voting.
3. Jurors will provide feedback for every submission.
4. In order for a qualifying candidate to become a member of the Wiki Jury, a submission must receive 50% +1 votes from those Wiki Jury members who actually voted for that submission.
5. The Free TON Wiki Initial Members that form the original Free TON Wiki Jury will retain their Wiki Jury membership after this contest ends. All the rights and duties of the Wiki Jury specified in this contest apply to them.

Procedural remarks

- Participants must correctly upload their application to the contest (in PDF format) in order for the jury to view it. If the application is not available or does not meet the described criteria, **the candidate will be rejected by the jury.**
- Participants must submit their work before the end of the contest. If the application is submitted late, **it will not be accepted.**
- All submissions must contain the contestant’s contact information, including a Telegram username, by which jurors can verify that the submission belongs to the individual who submitted it. If not, **your submission will be rejected.**

- If your submission has links to the work performed, the content of those links must have the contestant's contact details and Telegram username, so jurors can match it and verify who the work belongs to. If not, **your submission will be rejected**.
- Contestants must provide valid FreeTON addresses where they will receive their reward in case of winning. **Make sure that you keep your seed phrase and private keys from your wallet in a safe place.**
- Every participant can submit only one submission. Unnecessary submissions will be rejected.

Special condition

Any winning submission may be canceled if the contestant fails to provide a public key corresponding to the address sent with the submission within 72 hours of receiving such a request from any of the current Free TON Wiki Jury members.

If the submission is canceled, the contestant will lose the right to be elected to the Free TON Wiki Jury in this contest.

Disclaimer

Anyone can participate, but Free TON does not distribute TONs to US citizens or entities.
