

Buy Cryptocurrencies with Visa and MasterCard

Buy and sell cryptocurrency quickly, reliably and inexpensively at any time

About

Bmoon.io provides a gateway to buy cryptocurrencies with Credit and Debit Visa/MS cards. Our service works for more than 1 year and has a lot of clients from a few countries.

Advantages

- Low service commissions
- Bmoon pays for your blockchain transaction
- Powerful referral program with 3 levels in depth
- Daily payouts (referral program)
- Simple and functional interface with all history of transactions
- Reliable support agents
- White label solution for our partners.

Market Review

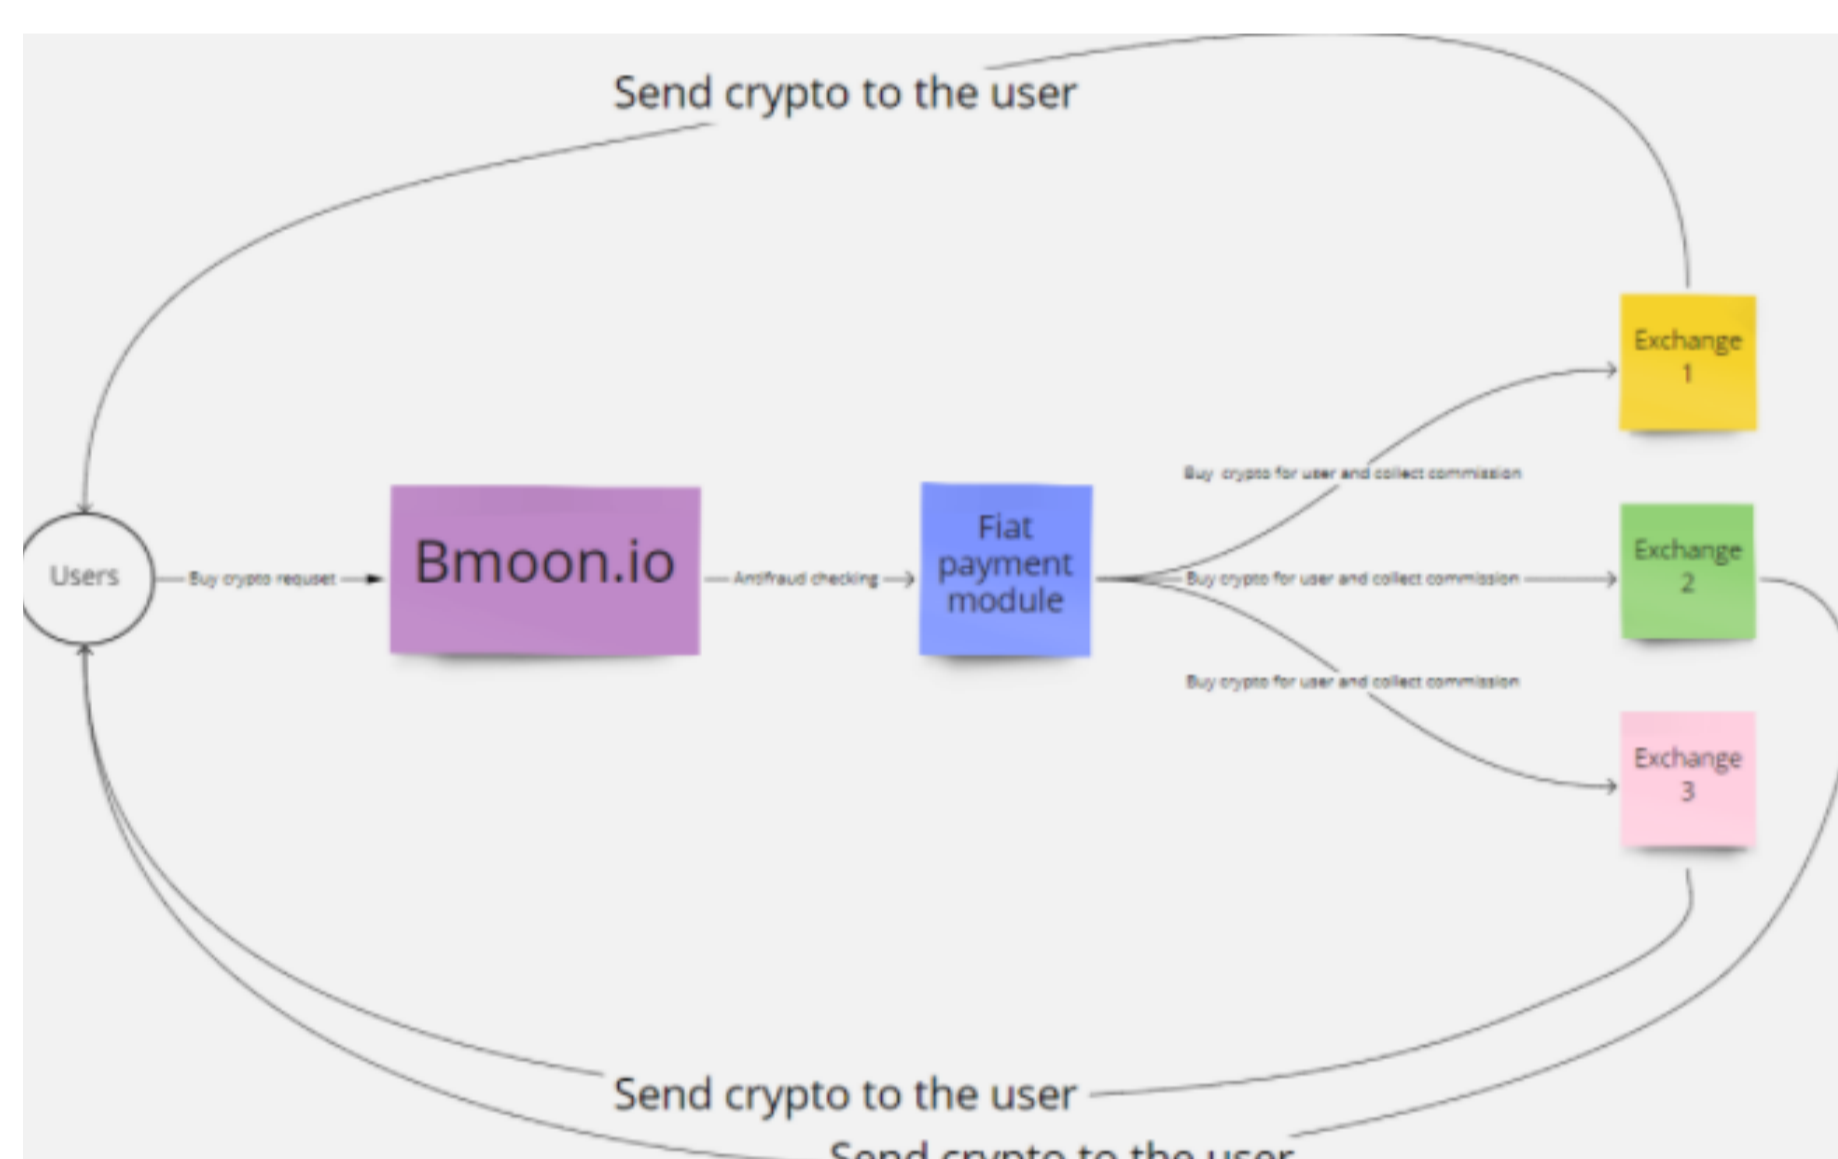

We work on a high-potential market with strong competitors.

Market size(2020): **\$10 Bln.**

- Top of our competitors:
- Changelly (changelly.com)
 - Indacoin (indacoin.com)
 - Simplex (simplex.com)
 - Changehero (changehero.io)
 - Paybis (paybis.com)
 - Binance (binance.com)
 - Cryptopay (cryptopay.me)

Business model

Bmoon has a simple business model based on service fee for payment processing + Bmoon earns on the token's rate spread

Key indicators:
\$300k+ payments volume per year.
2-5% Bmoon commission for different cases.

Team

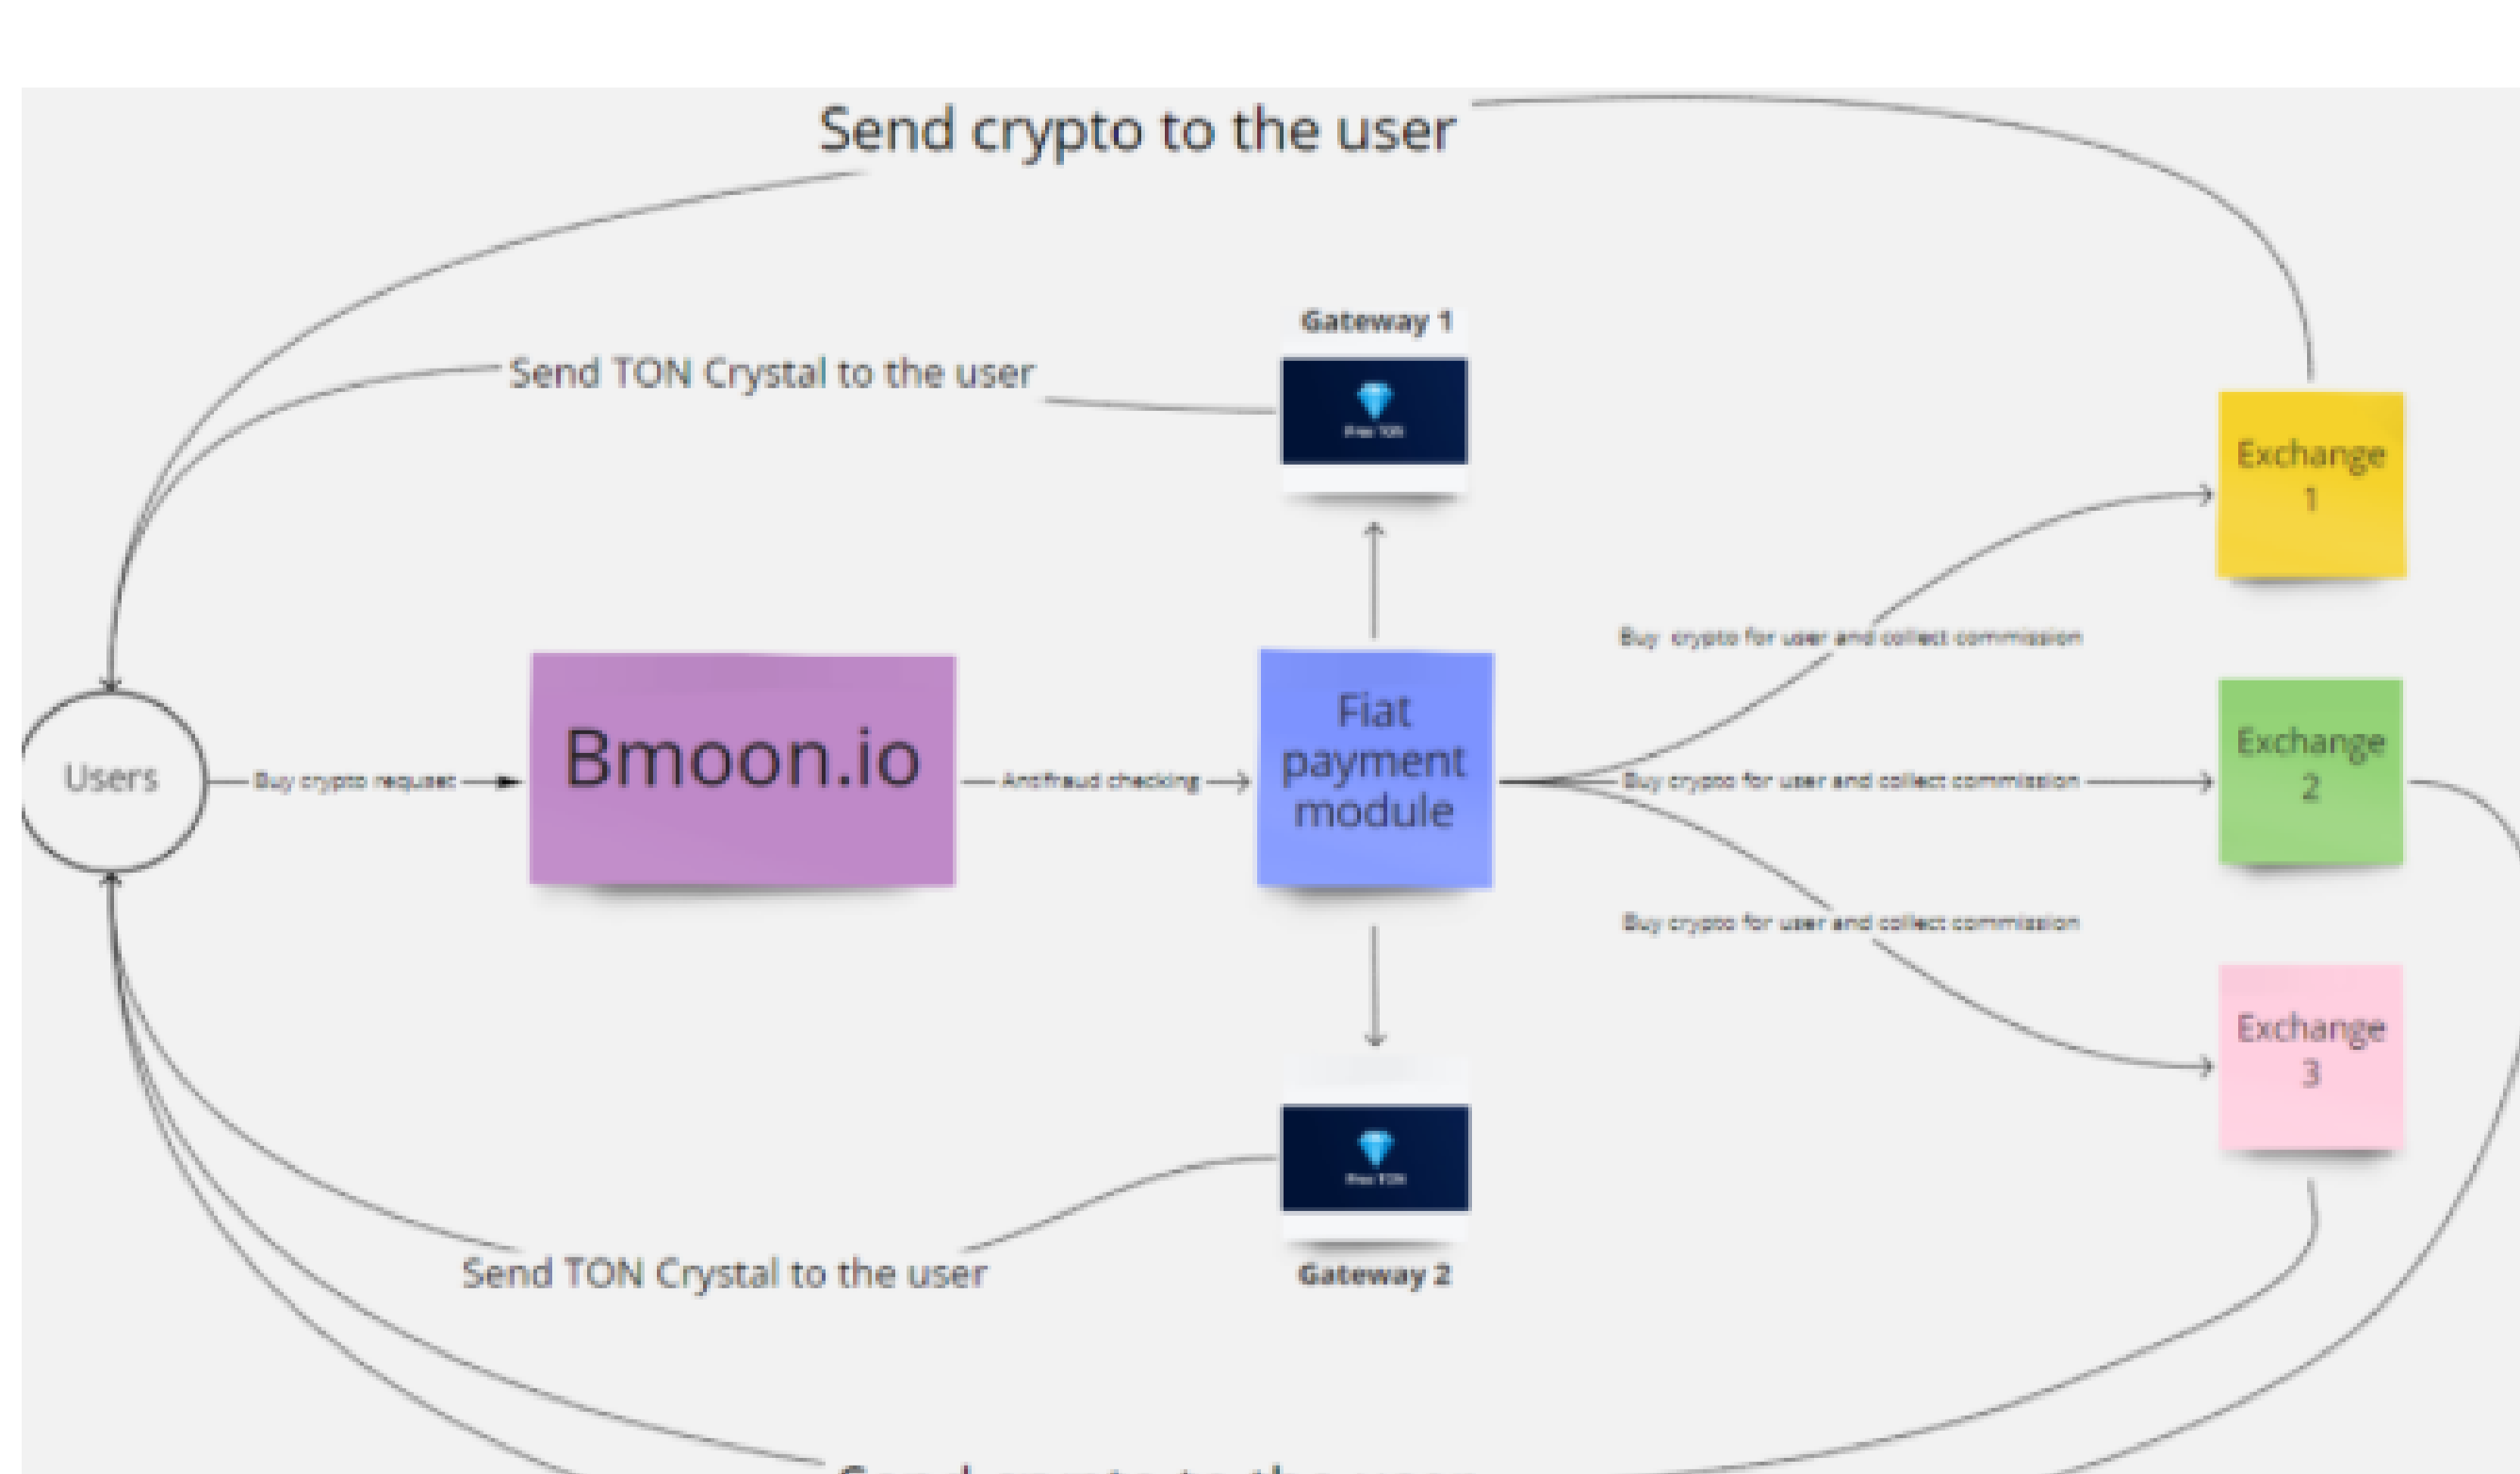

- Bmoon is a project with a small, but effective team:
- 2 Developers
 - 2 Support manager
 - 1 marketing manager (That's me, Andrey, 21 y.o, co-founder of the project with 35% shares)

Integration with Free TON

Bmoon.io is open for interesting integrations and Free TON is this!

We are ready to connect TON Crystal in our payment gateway through a supported exchange or directly with node if it's possible.

Scheme of integration:

Contacts

Look forward to cooperating with the Free TON community!
