

Wiki Contest Proposal: Members Selection

Description

Updating the membership of Wiki Subgovernance with a total of up to 30 members from the Free TON community, ready to spend time and effort to make major decisions for the development and growth of the Free TON Wiki.

Members will also automatically be included in the Wiki Jury and will have to assume the duties of judging in all Wiki Subgovernance contests.

Type

Contest

Contest period

November 25, 2020 00:00 UTC – December 9, 2020 23:59 (UTC time)

Motivation

In order to decentralize processes within the Wiki Subgovernance, a wide and international membership of the community should be selected. This will help achieve the goal of decentralized sub-governance for the Free TON Wiki.

Submission requirements

The contestant must provide curriculum vitae or experience that demonstrates one, all or more of the following:

- Be a member of the Free TON community and sign the Declaration of Decentralization (necessary but not sufficient requirements).
- Be an active member of the community and/or make a real contribution to the growth and development of the Free TON Wiki in accordance with the mission and goals of Wiki Subgovernance.
- Be a loyal and friendly member of the Wiki community and help the Free TON Wiki work.
- Have high marks in their native language at school or university, philological or editorial skills.
- Show knowledge of IT and/or blockchain technologies, good understanding of decentralized governance.

- If the contestant is NOT currently an active member of the Wiki community or has NOT made a real contribution to the Free TON Wiki, then the contestant MUST explain in detail in their submission what specific benefits they intend to bring to the Free TON Wiki.

Winner rights and duties

The winners will become members of the Wiki Subgovernance, and will automatically acquire the rights and duties of the Wiki Jury judges.

Members' duties include (but are not limited to) the following:

- Participate in the life of the Wiki community, understand the ongoing processes within the Wiki Subgovernance, analyze existing problems and propose solutions.
- Participate in major decisions for the development and growth of the Wiki Subgovernance and vote on proposals that members are authorized to accept, including decisions to change the membership or the Wiki Jury.
- Vote in all Wiki contests as a Wiki judge. The rights and duties of the Wiki Jury are described in the respective Wiki Subgovernance accepted proposals.

Members will be rewarded based on their personal contributions, results, and the benefits they have brought to the development of the Wiki. There are no regular rewards just for having a membership.

The procedure for reward of Wiki Jury judges is described in the respective accepted Wiki Subgovernance proposals and depends on the volume of participation of judges in the voting.

Limited membership

Membership in Wiki Subgovernance is not guaranteed for any period of time and can be limited or canceled at any time by general vote of the members.

The rights of any member may be limited or a member may be excluded from the membership for the following reasons:

- Lack or insufficient activity in fulfilling his duties as a member for 2 months.
- Low loyalty to the Wiki community, lack of interest in the processes within Wiki Subgovernance, lack of results.
- Hindering the normal operation of Wiki Subgovernance, ignoring or sabotaging decisions made by members or the community.

Voting for new members

1. Each of the Wiki Jury judges will vote for any submission (contestant) to make the contestant a new member of the Wiki Subgovernance.

2. Each judge will vote by rating each submission (contestant) on a scale of 1-10, or the judge may reject the submission if it does not meet the mandatory requirements, or the judge may abstain from voting.
3. Each judge must provide feedback on each submission (contestant).
4. For a contestant to become a new member of Wiki Subgovernance, the respective submission must receive 50% + 1 votes from those judges who actually voted for that submission.
5. The current members of Wiki Subgovernance will retain their membership after this contest ends. They are subject to all rights and duties of members stated in this contest.

Procedural remarks

- **Each contestant must be a real person and can only send one submission.** In the event of fraud and/or the use of multi-accounts, all submissions of this contestant will be invalidated and the winning in the contest will be canceled. In this case, the contestant will lose the right to be elected as a member of the Wiki Subgovernance.
- Any winning bid may be canceled if the contestant (winner) does not provide the public key corresponding to the address sent with the bid within **72 hours** of receiving such a request. In this case, the contestant will lose the right to be elected to the membership of Wiki Subgovernance in this contest.
- Due to technical limitations, only **32 persons** (maximum custodians in a smart contract) can be members and judges together. Therefore, if more submissions are sent for the contest than necessary, then submissions will be accepted on a first-come, first-served basis so that the quantitative limit is not exceeded, including existing Wiki members and judges. Submissions in excess of this amount will not participate in the contest, even if the judges voted for them.
- Contestants must correctly upload their submissions to the contest (in PDF format) in order for the jury to view it. If the submission is not available or does not meet the described criteria, **the candidate will be rejected by the jury.**
- Contestants must send their submissions before the end of the contest. If the submission is sent late, **it will not be accepted.**
- All submissions must contain the contestant's contact information, including a Telegram username, by which jurors can verify that the submission belongs to the individual who submitted it. If not, the **submission will be rejected.**
- If the submission has links to the work performed, the content of those links must have the contestant's contact details and Telegram username, so jurors can match it and verify who the work belongs to. If not, the **submission will be rejected.**
- Contestants must provide valid FreeTON addresses where they will receive their reward in case of winning (if it was provided by the terms of the contest). **Make sure that you keep your seed phrase and private keys from your wallet in a safe place.**
