Brief statistics and comparison with conditions

Now we're positioning ourselves more as a technological Internet magazine and at the moment most articles with a bias in the educational aspect, because at this stage it was not possible for us to meet the requirements for the number of articles

→ ## 60+

Number of articles about Free TON

Fully meet the conditions (English + unique + at least 1000 characters with spaces)

At the end of each article there is a button for the result of the uniqueness check

→ ## 2

Number of languages

We're just getting started. Therefore, at this stage, we are implementing only 2 languages (English + Russian)

Fully relevant articles about Free TON

All articles are dedicated to the project or its child projects

All articles are "twisted" under the topic of Free TON

Complexity of publications

We post articles in 7 different formats

News, contests, events, articles, education, guides, ama & meetup - at the initial stage of our work we write in such formats

## We already have plans, what publication formats we will add soon

Gradually, in small steps, we increase the complexity of publications and add new formats

Educational aspect of publications

We write educational guides and train our readers

About 1/3 of all posts are educational in nature

guides vs education

10 articles

14 articles

Structured information on the site

All articles are divided into formats and published separately

You can browse our main menu and find what you need

We have:

- convenient navigation menu
- article categories
- tags
- keywords
- search line

Design features

## We use an extremely simple design
We are for minimalism

Connection with Free TON

→ **The presence of links in the main menu of the site**

→ **The presence of links in the footer of the site**

→ **The presence of links in almost every article**

Our plans

→ **For the given period of time, it was impossible to achieve much that I would like**

Therefore, we set the following goals for the future

→ **Add some more languages**

→ **Start writing even more complex publications**

→ **Introduce FreeTON.GURU into the FreeTON project and start actively promoting it**

→ **Recruit an active team that will work for the benefit of the entire community**

→ **And just get better ...**
